2013 brings with it things that will stay the same and lots of things that will change. We hope the changes that come your way are only good and/or exciting.

Many folks have New Year's resolutions and ideas of grandeur and some people are more realistic about what is in store for their 2013. For some it's just fun to play the guessing game about the New Year. There are always fun and sometimes rather serious statements and saying that we like to share upon the arrival of the new year. Here are just a few: 2013-It's Time To Start Anew so Let's Get Going. Think It Through and Get It Done. May 2013 bring you many days of ordinary miracles! May you always get green lights on you way to and from work or shopping. And may there be **NO** traffic (That would be a Miracle). May you always get in the fastest line at the grocery store. Here's hoping you hear a good "sing along" song on the radio.

Take time for **YOU** and your **Family** and **Friends** On most occasions for the pilots, there is planning and more planning and inspections and annuals and then the dreaded repairs. Those are usually more "**FUN**" than we can handle. Here's hoping the fun we have **IN** our planes outweighs the "**NOT SO MUCH FUN**" stuff outside our planes.

2013 is the year to Give More Meaning to Chapter 690-We can't do it without you which means in positive lingo-**We Want to Do It With You!!!** Plan to get more involved and make things happen—like a hangar dance and vintage planes exhibit and special shows and fly-ins and fly-outs. The sky's the limit!!! (No pun intended) We also welcome your thoughts and ideas on what you'd like to see.

If you aren't already a member, please join our **FUN** group as soon as you can.

## The 2013 Dues Drive

We are very excited about the New Year and look forward to being a very active chapter. And, of course, that means more funds. That's where we all play an important role. Our Chapter Dues for 2013 are now due. For individuals the cost is \$30.00. For families, it's \$40.00. As was recently learned at the Chapter Board Meeting, we are very good stewards of your money and will put it to im-

portant and meaningful use. Thank you in advance for taking care of this very important task. Please check the website, [www.eaa690.org](http://www.eaa690.org) for ways to pay.

We made our goal of **200** members in **2012**. It would be very exciting to increase that number by at least 20% for **2013**. Let's have **220** or more paid members this year. **GO 690!!!!!!**

# A PLETHORA OF PICTURES

## Our Wonderful Christmas Party

Just enjoy the pictures,

**Remember the FUN!!!!**

## Another Thank You

## Tidbits and FYI's

It was **86 years ago** when Congress passed the Air Commerce Act of 1926 that included Section 25 governing the "Licensing of Special Classes of Airplanes." Nowadays there are eight different designations under FAR 21.191, entitled "Experimental Certificates". Every

kind of experimental aircraft from research and development to exhibition (warbirds), to air racing, and of course, amateur-built designations are clearly listed and defined.

**EAA Skiplane Fly-In Set for January 19th**-The fly-in will be at EAA's Pioneer Airport in Oshkosh. This special winter event celebrates three important occasions: the unique flight segment of skiplane flying, the anniversary of the first-ever meeting of the Experimental Aircraft Association, and the January 24 birthday of EAA matri-

arch Audrey Poberezny. Be safe and have fun if you're able to attend.

And take pictures to share with those of us that couldn't go.

## Thank You!!

To my fellow EAA Chapter 690 Members & Friends -

Please accept my grateful thanks for all of the well wishes, inquiries, calls, cards, flowers & plants, gift cards and visits. Your support and care have helped more than I can say, through what is a continuing long recovery period.

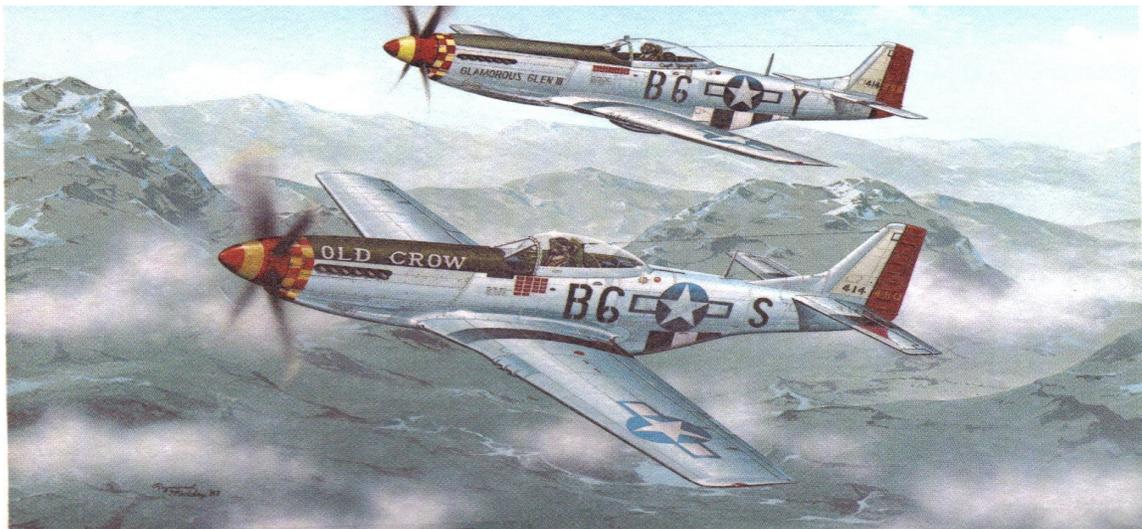

I have been out at the hangar for some recent events. and plan to attend some upcoming events. I still have to pace myself and not "over do," but I'm eager to see more of your faces after all these months.

Again, a warmhearted and appreciative "Thank You." You all mean so much to me!

*Lnor*

*Double Trouble*

Dear Members of EAA Chapter 690,

When I made the decision three years ago to pursue a career in aviation I thought it was an impossible dream but I was determined to make it happen. Thanks to the generous support from people like you I achieved my instrument rating this past summer. I know I have a long way to go and more hard work ahead but I feel incredibly blessed to have had so many people willing to give their time, talent, and financial support to helping me reach my goals. I will be forever grateful.

Sincerely,  
Melisa Fowres
