SOMEONE IS PROJECT PROFESSIONALLY
welded/brut welded, fuselage on gear wing
span ready for mod. Complete kit except
for fabric, engine and paint - some extra.

PRESIDENTS MESSAGE

The combined 268-690 breakfast with Paul Pobrezny as speaker was successful and most enjoyable for those who attended. Paul's presentation was a good balance of nostalgia, EAA history and current issues facing sport aviation. He ended with slides showing some highlights of Paul's life as he has interacted with the EAA over the years.

During the breakfast we presented Paul with a badge and patches making him an honorary member of 268 and 690

At the end of the meeting we presented Paul with a John Ficklin painting of a DC3 framed for hanging in his office.

Again the meeting was most enjoyable and I for one was glad to meet Paul in person.

We have decided to go with a pancake breakfast on May 14th rather than a full Air Fair. Griffin has announced a Fly In May 14-15 and has publicity out already.

We will schedule a full "Air Fair" in the fall when there is a lull in other activities.

You chili cooks out there, grab your pots and get cooking! Chapter 690's 1988 Chili Cookoff will be on April 23rd. It will take place at Phil Chestnut's house and hanger adjacent to the Lenora grass strip. Plan to drive, fly or walk but come. Ken Sharp (923-2126) is the special activities chairman for this. He will have more details at the next meeting.

We are considering a subscription to Light Plane Maintenance. The material will be kept at Stone Mtn airport office so it will be available to those who can use the information. We are also considering the possibility of keeping our other chapter manuals, library, etc. at the airport for easier access.

Harold Stalcup

"CLASSIFIEDS"
