

Local Chapter 713

EAA 713 Club Officers

President – Karl Lampe
Vice President – John Stephan
Treasurer – Ken Foote
Secretary – Cebe Sue Breisch
Newsletter Editor – Suzanne Stephan

EAA 713 Newsletter July 2023

President's Briefing:

– *Karl Lampe*

Karl's Korner

Holiday time! Cody can be a little chaotic, so be safety aware during this wonderful holiday season. Does not appear to be a problem with fireworks fires this year. Please come away with all your fingers and skin.

Have enjoyed some flying time even though the weather has been a big challenge each time. Just received an inquiry about August next year and Young Eagles. There are to be 55000, that's 55K youth in Gillette and there is a request for support in providing a Young Eagle opportunity for them. Interested? Next week's meeting is food and social focused. Some business to attend to, but the food is special. Be well and see you next week. Karl

News from the YRA Board:

YRA Board News

Steel packages for two sets of T-hangars have now been ordered. Each complex will include 11 T-hangars and a restroom at the end. Completion is expected by April 2024. With CARES Act funding short for completion of both sets of hangars, one set will definitely be heated. It is possible that the other will not be heated. If you are interested in renting one of the new hangars, Aaron Buck, Airport Director, is taking names of interested parties, so you are encouraged to get your name on the list. Aaron is expecting rental rates for the heated hangars to be \$400-480 per month and \$300-380 for those without heat. There are 11 interested parties on the list, so half may already be spoken for. Don't delay if interested.

**EAA 713 Monthly
MEETING on Tuesday July
11 at 6 pm!**

JOIN US FOR DINNER!!

MENU:

**Smash burgers with grilled
onions and bell peppers.**

Smash refers to the cooking process which places a loose ball of ground beef on a hot grill and presses it flat with a cast iron press to sear the meat.

Served with:

Fried corn and bacon

Many thanks to friend **Daniel Aycoth**, a flight student of **John S**, who has treated us to this delicious meal numerous times!

Side dishes or desserts will be appreciated!

**Next EAA Board meeting
is set for Tuesday July
25 at 8:30a.m.
All our welcome!**

Photo Editor:

OK - Time for a few pictures from our last meeting. We had a good turn-out, great food and a very interesting presentation from the YRA Airport Operations crew. Bruce Ransom and John Cordes took some time out of their busy day to present to our EAA chapter a look "behind the scenes", so to say, of how the YRA Operations crew handle day

to day operations. Principle concerns is safe operations around the airport and the daily flight operations that take place.

Emphasis was placed on letting us know that the safety services the airport provides is fully available to ALL aircraft operations, not just the daily airline flights.

They also brought along the airport fire fighting vehicles and gave a tour of them. Bruce and John were kept busy answering many questions and gladly demonstrated the very capable equipment YRA has in operation.

We also had our local Civil Air Patrol unit in attendance. It was great meeting them.

Have a look at a few pictures!

Bruce Ransom and John Cordes brief on YRA Operations

John and a happy member

I know that John wanted to drive this monster

Finally, they're fed!

Bruce Ransom

Lotsa' seats!

Lotsa' questions! For Bruce

So, there you have it: A great meeting, excellent

food, and a very interesting program!

Thank You Bruce Ransom and John Cordes -YRA Operations Staff - for taking the time to present to our EAA Chapter 713 your EQUIPMENT and explaining the capability of the YRA emergency response crew!

Independence Day and Memorial Day activities - A little look at the event:

A beautiful day!

Governor Gordon and the Wyoming Congressional Delegation gave speeches

There was a scheduled fly-over of T-34s from Red Lodge...but, they cancelled - We did have a "fly-over" of a French Dassault - Falcon 900LX Business Jet: 14 passenger, 4,750 NM range - sure looked nice!

some tractors out at Memorial Park - they looked great and recalls the fact that America prospered and grew when we manufactured the great tractors that helped feed America.

I'm not sure if McCormick is still manufacturing tractors...it's a fact that much of our other manufacturing has disappeared across the seas.

The parade theme this year was 'agricultural'. They had

John Deere is still manufacturing in the USA and: "Nothing Runs Like a Deere!"

It Was A Great July 4th Weekend and the Parade Was Excellent:

Long Horn Steers! walked down the parade route to open the parade

and our president Karl Lampe was leading the way; however, Karl was driving too fast and was past me before I could get my camera ready! so I only got the backside of Karl and the John Deere he was driving! DARN!

Our very own John Stephan with Suzzane his helper appeared again as only he can: Santa Claus is coming to town! You better watch out!

Aviation History Quiz Time:

Last month Ted Ajax named the most aircraft correctly, Perre Davidson was second - everybody else must have been completely bamboozled!

The correct answers were:
*Lockheed F104G, ME-262A,
ME-163A, BF-109G6,
BF-109E3, TA-152H,
FW-190A6, FW-190D9*

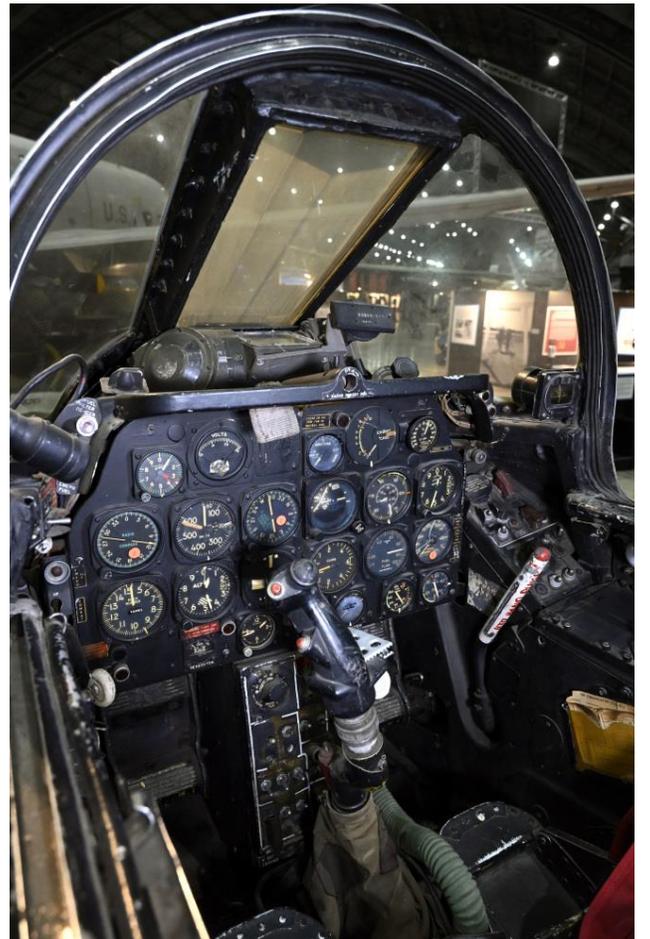

*Good job, thumbs-up to the
winner Ted Ajax!*

Now for this month's quiz:

Just name these aircraft:

Here's another one:

I'll give you a little hint: Both aircraft were used in the Korean War.

Email your answers to:

[*gulfstream1159a@gmail.com*](mailto:gulfstream1159a@gmail.com)

*That's all folks!
See you at this month's
meeting: July 11th at
1800 (that's 6:00 pm)*

*Cheers,
Fred*
