

Local Chapter 713

EAA 713 Club Officers

President – Karl Lampe  
Vice President – John Stephan  
Treasurer – Ken Foote  
Secretary – Cebe Sue Breisch  
Newsletter Editor – Suzanne Stephan

## EAA 713 Newsletter October 2023

### President's Briefing:

- Karl Lampe

Karl's Korner.

My favorite season of the year. All the best builders are all hunting: for forever. The weather can snow at any moment and then it does. Projects get completed, at the last moment. The moon shows its most beautiful look of the year, What's not to love? Enjoy preparing for the challenge of winter and Cherish the upcoming holiday celebrations.

Our upcoming EAA gatherings are taking the same direction, cherishing the season. Let us enjoy the opportunity to gather. John Stephan will be out of town for October, so the meal will not have his direct touch (see details, a chili cookoff, in the newsletter). November will be a Thanksgiving celebration, and December 12th is the Christmas party.

If you are in the same boat as I, with travel plans, be as always safe in our planning and execution. Go and return unscathed so we can continue to enjoy each other's company.

### Secretaries Report:

- Cebe Breisch

EAA Board Meeting

September 26, 2023

Karl opened the meeting with all present except Ken and John L. The minutes of the August 22 meeting were read and approved. The treasurer's report showed \$10,366.26 in the General fund and \$9,389.75 in the scholarship fund. The report was accepted as read.

Old Business: The work on the estate planning letter we want to write was delayed until Ken can be present for better input. Reviewing the Wings and Wheels event we cannot come up with a better number of people we served but decided next year to make a better effort by pre-counting plates or using a clicker!

New Business: Chuck reported our membership remains at 65. From the YRA Board meeting he reported that the FAA has approved the new lighting/landing system and charts will now show this change. Also, our club question about the compass rose was asked by Chuck and it will be repainted on the new asphalt. Since Bruce Ransom took a new job

as airport director at Riverton the new Operations Manager here is Clay Nelson. Chuck invited him to our next club meeting to introduce himself to us.

There were no new scholarships to be presented. A flyout to Driggs, ID this weekend for a pancake breakfast by their EAA chapter was noted. The Christmas party will be on December 12 and Cebe will contact the Ivy again to begin making arrangements.

Ken prepared an August 2022 to August 2023 review of the club's expenses/revenue comparing it to August 2021 to August 2022. There were some questions concerning the breakdown so we decided to revisit it next month when Ken can be here to clear up our questions.

In the absence of John S for our October 10<sup>th</sup> club meeting we will have a chili dinner provided by members of our club and the presentation will be by John Brouillette in his hangar about his RV14A building project and a demonstration of the riveting tool. Next Board Meeting will be Nov. 1, 2023 at 0830

## News from your Membership Coordinator:

**Chuck Walker**

### Membership News

Chapter membership is steady at 65.

### YRA Board News

The new approach lighting system has been flown and approved by the FAA. It will be reflected in the next chart revision.

Bruce Ransom, who has so ably served as YRA's Operations Manager for the past 12 or 13 years, has recently been selected as the new Director for the Riverton Airport. Congratulations, Bruce! Klay Nelson has been promoted as our new Operations Manager. Congratulations, Klay!

## Treasurer Report

**- Ken Foote**

- ➔ General Fund Total - \$10,366.26
- ➔ Aviation Scholarship Fund - \$9,389.75

**EAA 713 Monthly  
DINNER MEETING on Tues.  
October 10 at 6 pm!**

MENU:

- Three types of homemade chili from members:  
John Brouillette, Fred Breisch and Suzanne Stephan
- Corn chips and shredded cheese will be provided.
- Other side dishes are welcome!

PRESENTATION:

John Brouillette will share his RV14A project in his hangar across from EAA hangar.

**Next EAA Board meeting is November 1, 2023, at 0830.**

**UPCOMING CHAPTER EVENTS**

EAA 713 November 14 meeting will be a full **Thanksgiving** meal! Turkey, stuffing, and a spiral ham will be provided. All side dishes are welcome. Please email Suzanne

Stephan if you plan to bring something.

EAA 713 December **Christmas** party will be held at the Ivy December 12. More info to follow

**EAA 713 Member Dean Carroll** was featured in Sport Aviation September 23 issue. Thankyou Chuck Walker for sharing this article. Everyone is encouraged to share aviation articles for the chapter newsletter!

## Photo Editor Input:

Here's this month's pictures: We had a good turnout of the membership in support of "Young Eagles" flights (check out the pics). We did not have as many Young Eagles as we would have liked. That definitely was not anybody's fault: Karl and Cebe Sue appeared on the KODI community activities radio program and out of that effort we garnered 1 Young Eagle! Oh well, we tried.

Cebe Sue also manned the "Young Eagles" table at Wings and Wheels in an attempt to "sign-up" youngsters for a flight...again, not as many as hoped for. On "Flight Day" we flew 12 Young

Eagles. There were 4 volunteer pilots who flew the flights:

John Stephan  
Dave Shaw  
Bill Snyder and  
Fred Breisch

Thanks to everybody who pitched in and helped - the weather was beautiful, and the kids had a great time on their flights; also, parents expressed how pleased they were with the opportunity given to their "kids" for a flight around the Cody area and the introduction to the world of aviation.

*Sign-Up Team hard at work.*

*Cebe Sue had things well organized, and Bev Shaw was getting that annoying paperwork done.*

*Dave Shaw's T-Craft airborne.*

*T-Craft taxiing out for T.O.*

*John Stephan's Cessna 185 loading-up for a flight.*

*Bill Snyder's Beechcraft Sierra panel looks very nice...pretty fancy Bill!*

*Young Eagle aircraft...as you can see the weather was really perfect!*

*Dave Shaw briefing.*

*John Stephan taxiing for T.O.*

*Hey Mom, I made it!*

*Bill Snyder taxiing out.*

*This is what it was all about - Fred with his "crew" - all Thumbs-Up!*

*Interesting clouds.*

*Well, that pretty much gives you an idea what happened on EAA 713's "Young Eagle" flying day. Lots of fun, good effort...again, thanks to all*

*who helped make this happen.*

*presentation - Thank you John!*

### *Our Monthly Meeting*

*featured John Stephan's Baked Zita and other Goodies...Great Food!*

*Lots of great visuals and videos during the presentation.*

*Then John gave a very interesting presentation on the National Intercollegiate Flying Association and their annual competition that determines the winning team. A very interesting*

*Great turn-out!*

## Quiz Time!

### Last month's quiz question:

What type aircraft are these passengers enjoying their flight in?

Answer: Douglas DC-7... or the Douglas DC-6 - both had the same basic interior dimensions.

This Month's Challenge - Name the aircraft in these pictures. One is obviously in the Jet Age and the other is of an earlier vintage prop airliner.

The aerodynamic fairings are obviously prominent. So, if you know the aircraft type, then can you name the airline company that operated the aircraft?

This sure looks comfortable...the artwork is the main clue.

Good luck! And Fly Safe!  
Fred
