(KFYV)**

Bring a snack to share, and the Chapter will provide soft drinks as usual!

**OSHKOSH! Start Planning Now!
July 24-30, 2018**

**Travel Airs Will Take AirVenture 2018 by Storm |
EAA**

<https://www.eaa.org/.../airventure/...airventure...airventure...airventure.../07-28-2017-...>

The American Barnstormers Tour announced that after a six-year hiatus, in **2018** it will be leading a tour of 10 antique Travel Air biplanes!

A Note from Randy

I hope that those who were able to attend Oshkosh this year enjoyed the event. I know my family did. Only saw a few of our chapter members there but I am sure there were more that I did not see. Even with being there for the week there were still exhibits that I did not get to. For those that were camping in Camp Scholler, it was as full as I have ever seen it.

I also cannot believe the temperatures that we have been having for early to mid August. Hopefully those that can have been getting some flying in in the cooler temps.

This month's meeting will be back at the museum this coming Sunday August 20th at 2:00 pm like normal.

See everyone on Sunday!

Randy

Volunteers Needed

We need you!

We need volunteers to step up! We have committees that need chairs and open positions that need filling! If our organization is going to grow and thrive it is really up to you as a member to step forward and volunteer. I am always impressed with the volunteers that step forward to make Oshkosh the best show on earth! Many of those volunteers are not members but they can recognize a worthy cause! Our chapter is worthy of our time. Please visit with Randy or a board member to see where your talents can best serve Chapter 732.

Please consider volunteering!

The Shortest Airplane Landing Ever

The pilot's name is Jon Bush. His plane is an SQ12, but it could just as well be a helicopter. I'm pretty sure his wheels didn't turn at all during that landing. Now if we could just figure out how he plans to take off.

To watch a video of the landing Click below.
