# Pam Doughty & Ada Younkin

Hello Spring everyone!! It is finally here and the weather has been amazing lately. Hopefully those of you with airplanes are able to get out and fly. We had a great time at Jim's birthday celebration at the museum--good food and good company and lots of good airplanes! Jim surely seemed to be having a good time talking with everyone there.

i am excited about the meeting this month, which is on the 14th this month due to Easter. Fred and LaQuita are bringing a ham for the main dish so bring accompanying sides and desserts to share at 1:00. The meeting will start at 2:00 and I want everyone to be thinking about who wants to be officers for next year. We will be voting in May.

Take care and I look forward to seeing you all there!!

Pam Doughty

**Subject: Arkansas Sonex for sale:**

Hello Frank, Rick and Jim,

I use to live in Fayetteville and was an active member of EAA chapter 732. I built one plane in Fayetteville and kept it at Springdale. After moving to Greers Ferry Lake near Heber Springs, I started a Sonex. Finished it in 2013 and have really enjoyed flying it. It's a great plane for fun flying. I need to sell it and have attached an information sheet below.

If you know anyone who might be interested please share this with them. If possible please share this at your next chapter meeting. I have it priced at less than half of what I have in it. It should be a great value for some pilot. I fly it as a light sport category.

Thanks for any help. Good luck with this years Sonex Midwest fly-in.

Happy Flying,

Craig Hoskins

# N750SB Update

Submitted by Steve Bray

N750SB has been transported up to the runway at Lost Bridge Village (40AR) where with some help from the neighborhood helping Steve, the wings and flapperons were reattached. Steve also spent part of the last week of March at Buzz Air Academy in Lawrenceburg, Tennessee for transition training. Buzz has the only factory built Zenith 750 available for instruction rental.
