Grayson Manning with his project in the Fisher booth.

Chapter 732 campers:

Front row L to R: Dollie Lou Resh, Amy McConnell, Mont McConnell, Randy Doughty, Pam Doughty, Junelle Moore, David Moore, Elizabeth Resh.  
Back row L to R: Richard Rost, Randy Resh, Dan Olsen, Nancy Olsen, Gerald Resh, Asa Linn, Gary Linn

Boat ride at the Seaplane Base.

Gerald and Randy Resh, Amy and Mont McConnell.

## A Message from Chapter 732 President

I hope everyone has had a good month. Hoping those of us who made AirVenture have recovered. We were visited by a prospective member family. I want to thank all who met with them for welcoming them and doing our best to make them feel at home. Our speaker this month is Mike Bowman, Drake tower chief. He has just returned from a controller's training on drone ops. With Walmart HQ we all know it's coming to our area first. We'll have a brief update from Justin Tisdale on his Reno STOL Drag entry. And possibly a brief update from Jason McMullen on his change of venue. And other updates of interest. Should be a very informative and diverse meeting. Hope to see everyone there.

Thanks Rich

# EAA Chapter 732 - Treasurer's Report, July, 2023

Period: 07/12/2023 – 08/13/2023

Previous Balance: \$2,093.66

Deposits: \$ 45.00 Donations

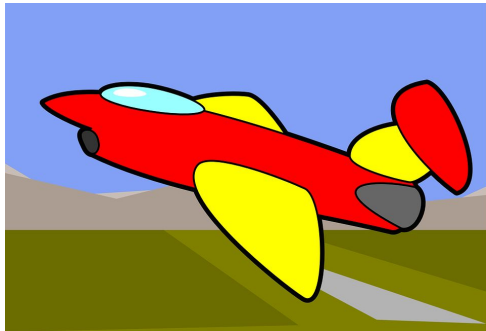

Withdrawals: \$ 49.36 July meal expense

Current Balance: \$2,089.30

Members who have paid their 2023 chapter dues: 41

Randy Doughty

EAA Chapter 732, Treasurer

Hello everyone. Just a gentle reminder that it is not too late to pay your 2023 chapter member dues. Dues are still only \$20. You can pay your dues at the August chapter meeting or you can send me a check.

If paying by check, make the check payable to: EAA Chapter 732.

Send check to the address below.

I look forward to seeing you at the upcoming meetings.

Randy Doughty  
EAA Chapter 732, Treasurer  
15939 Windsock Ln  
Fayetteville, AR 72704

## Fred's Father's Day Surprise

My wife and daughters surprised me with a seaplane ride for Fathers Day last month. We were on vacation to Destin, FL and there was a small seaplane flying up and down the beach we were staying at. This happened on the first day we arrived and went down to the beach. The next day I was surprised to get a text saying I had been gifted a seaplane ride. Wow, what a Fathers Day gift for a pilot. The seaplane was SeaRay amphibian with a pusher Rotax engine. The operator I flew with owned three of these, gave rides and provided instruction to get your seaplane rating.

In order to board the plane you had to wade out to it in 3' of water, so I was wet from the waist down. The take off was interesting because of all the boats using the same inlet we were using made for very choppy water. We finally got up on the step and lifted off. The ride lasted 27 minutes and consisted of going up and down several beaches at 500-700 ft AGL. We saw schools of tarpon, a large school of sharks just outside one of the inlets and several old pier structures only visible from the air. I was able to get my hands on the controls for a few minutes and actually got a sticker showing 0.3 hours of seaplane instruction. The landing was smoother than the takeoff and I enjoyed the ride very much.

Fred Fallis

## Chapter Video Link and More

No chapter video this month, I guess EAA was busy hosting a little fly-in.

- August Meeting:
- I'll be providing the main dish for lunch for the August meeting. It will be a make your own
- sandwiches. I'll try to have everything needed for the sandwiches.
- Gary Linn

Check out the video of Dale Mitchell and Bud Kiel arriving at the Huntsville airport for the May chapter meeting.

# Brodhead Pietenpol Fly-In

Submitted By Gerald Resh

Had a great time at the Brodhead Pietenpol Fly-in right before Oshkosh, attached are a few pictures.

Thanks,  
Gerald

## Poplar Grove Airmotive

While in the area during our Oshkosh trip, we were able to get ahold of Steve Thomas, owner of Poplar Grove Airmotive in northern Illinois. He showed us all around the airport, including his engine rebuild shop, museum, and some of his own personal collection. While we were there, we saw Stearmans, Wacos, Pietenpols, and a variety of other unusual airplanes filling the pattern, all on a normal Friday afternoon. The airport doubles as an airpark, including 100 hangar homes and roughly 400 airplanes. The engine shop seemed quite busy and Steve informed us that they complete an engine a day. Highly recommend to check this place out if you have time to spare in the area.

Thanks,  
Gerald
