EAA 766 IMC Club Safety Seminar

Topic: "Going Low"

On: Monday, June 3, 2024 at 18:30 CST

Location: Aviation Heritage Center of Wisconsin / N6191 Resource Dr.
Sheboygan Falls, WI 53085

Select Number:

GL13130004

Description: IFR Scenario presented by Tony Kolar CFII, Volunteer FAA Safety Representative

Guest instrument pilots and students welcome.

This seminar is not meant as a lecture but rather an open discussion forum using real world scenarios to increase your level of safety in the IFR environment. Safe instrument flying is a matter of mitigating risk, personal minimums and standard operating procedures. If you have and use sound judgement, establish personal minimums and good procedures, you can enjoy a long and successful career of instrument flying. The Sheboygan Falls (WI) EAA 766 IMC Club provides organized "hangar flying" focused on building proficiency in instrument flying. An instrument rating is not required for attendance.

Prior to attending a safety seminar, please review and abide by current CDC, State and Local health guidelines.

The sponsor for this seminar is: **FAASTeam**

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the 'Contact Information' area of the meeting/event notice. Note that two weeks is usually required to arrange services.
