EAA Chapter 766 Meeting at EAA Museum

March 23, 2024

The March meeting was held in the Batten Board room at the EAA Museum in Oshkosh on March 23rd. Following the meeting, the group of 15 met up with Neal Hansen (AHC member) who gave a short talk on his experience with Air America during the Korean war. Next, Paul Malloy from the museum gave a tour of the new youth education building that was added a few years ago. The group was then free to visit the museum on their own until gathering for lunch. Cross Country Flying Tips for the General Aviation Pilot

**Tuesday, April 16, 2024, starting at 18:00 Central Daylight
Time [Download Calendar File](#)**

This seminar series was developed by a team of six seasoned CFIs and Jurg Grossenbacher from the Milwaukee FSDO. We will discuss cross country flying for the Fair-Weather Pilot or an IFR rated pilot that would like to get back to the basics. Are you one of them? If you are worried about taking an airplane to go past the airport boundaries or you do not fly to hamburger socials, to visit friends across state lines then this seminar will get you started.

Discussion points:

- 1. Human Factors**
- 2. Cross Country Planning**
- 3. Weather**
- 3. Airspace-use of ATC**
- 4. IFR to VFR or vice versa**
- 5. Descent planning, proper traffic pattern entry, stabilized approach**

Great seminar for the Flying Club members.

"NAFI - Clinical Aspects of Pilots Mental Health"

Topic: How To Be Alert For The Signs And Symptoms Of Mental Illness, And How To Remove The Stigma That Surrounds Mental Health Issues. On Wednesday, April 3, 2024 at 19:00 Central Daylight Time

Select Number:

CE03128026

Description:

Mental health is a critical aspect of our overall well-being, and it is essential for pilots and others in aviation as well. Significant under-reporting of mental health conditions is known to be widespread throughout the aviation industry. In this MentorLIVE session, we will review the signs and symptoms of mental illness and explore ways that pilots may self-report any mental health issues they may be experiencing.

We will discuss how flight instructors can be alert to the signs and symptoms of mental illness, and we will explain how to remove the stigma that surrounds mental health issues. We will highlight reporting systems that are designed to maintain confidentiality while ensuring that individuals receive the necessary support while taking appropriate measures to ensure flight safety.
