**SBM Activities – Matt Grenoble**

International Customs Service begins April 12<sup>th</sup>. NASCAR event July 4<sup>th</sup>.

Temporary FAA tower provided from June 30 to July 5<sup>th</sup> with intent to retain tower 'til September 2021 for Golf Tournament. Facility hours -M-F 11:00 a.m. to 7:00 p.m. Special hours available. Fee schedule available from Matt. No construction plans at airport this summer. NOTE: Painted square on tarmac near Customs building is a NO Parking Zone. Be mindful during events such as W &W.

## Old Business / Open Issues

**Wings & Wheels 2021:** would mark 30<sup>th</sup> Anniversary. General discussion resulted in;

- 1) Matt Grenoble confirmed through e-mail that the Transportation Committee would allow EAA 766 to host W &W, provided we follow state COVID guidelines.
- 2) Motion by Glenn Valenstein and passed by majority to postpone W &W to 2022. Polling of membership resulted in cancellation of W&W 2021. Too many unknowns at this stage to confidently proceed.

**Adirondack Chair-** Parts are available at AHC. Bruce Becker will note in Newsletter a need for a volunteer to assemble.

## New Business

Proposed Chapter activity: Saturday prior to Father's Day, Chapter members and family join at AHC for pancake breakfast. Bruce Becker to e-mail membership for interest. Send replies to Chapter Secretary – Kyle Hokel

## EAA Chapter 766 Scholarships Available

Two scholarships of \$1000 may be awarded annually for use at any school with an FAA approved program. Students in Sheboygan County school districts are invited to apply for these scholarships which will be awarded based on high school performance, written recommendations and extra-curricular activities as well as an interest in aviation. The Scholarship Application deadline is May 1, 2021. Click [Here](#) for details and forms.

## Earn Your Pilot Proficiency “WINGS” This Year

Proficiency training is required for most professional pilots and plays a key role in aviation safety. Studies have shown that pilots who participate in regular proficiency training are much less likely to experience accidents.

The FAA’s *WINGS* Pilot Proficiency Program is one way for GA pilots to ensure they are competent, confident, and safe in their flight operations. Click [Here](#) for more information.

## Volunteer Needed for Adirondack Chair Build

Dave Rudd has purchased the wood for building the Adirondack chair. EAA Chapter 766 is offering an opportunity for a volunteer to build the chair in a safe environment. The chair will be recognized in the Blue Barn during EAA AirVenture 2021. Please contact Dave at [daverudd63@gmail.com](mailto:daverudd63@gmail.com) for more information.

## Learn to Fly Center at EAA AirVenture

Along with all the experienced aviators at EAA AirVenture Oshkosh each year, The World's Greatest Aviation Celebration inspires many others who find themselves asking, "I would love to learn to fly someday. What steps do I need to take to begin flight training?" The Learn to Fly Center at AirVenture's bustling EAA Four Corners area can provide the information they need and kick-start their flight training journey.

"The ultimate mission of the Learn to Fly Center is to motivate, excite, and show attendees a clear pathway to those who are inspired to earn a pilot certificate," said David Leiting, EAA's membership development manager. "We love to see the passion of people who are eager to learn because of AirVenture, but we also know they need answers to their many questions." The EAA Learn to Fly Center will feature multiple stations, each dedicated to helping individuals take a step forward in their desire to learn to fly.

Certified flight instructors (CFIs), experienced pilots, and those fresh out of flight training will be on hand to help answer any questions about the flight training process. Special attention will be given to helping visitors select the correct certificate that fits their flying desires, finding an Aviation Medical Examiner in their area, and how EAA can help them through their training process.

Also in the center will be four flight simulators outfitted with EAA's Virtual Flight Academy. Visitors will have the opportunity to fly a short introductory scenario, such as basic maneuvers and flying the traffic pattern. Users can access this same tool at home, via downloadable scenarios from [EAA.org/VFA](http://EAA.org/VFA).

To accomplish this mission, EAA will need a great team of volunteers. Whether you are a CFI, student pilot, recently passed your checkride, or are simply passionate about getting others involved in flying, we will have a volunteer slot for you. You can email David directly at [dleiting@eaa.org](mailto:dleiting@eaa.org) if you have an interest in volunteering at the Learn to Fly Center.

The Four Corners area, located at the intersection of Knapp Street and Celebration Way, also features the EAA Member Center, filled with information about all facets of EAA and AirVenture, and the popular Pilot Proficiency Center designed for enhancing skills and decision-making for current pilots. The fourth corner welcomes the return of an EAA merchandise area, where visitors can find AirVenture apparel, souvenirs, and more.

# Recurrent Testing for Drone Pilots Available

## FAAST Blast

Drone pilots who already have part 107 Remote Pilot Certification can now take their required recency of knowledge training courses online. The training ensures that they have the updated knowledge necessary to operate in accordance with the Operations Over People rule which became effective on April 21, 2021. The training is free and available on [FAASafety.gov](https://www.faa.gov/safety). Be sure to follow the “Training Credit” instructions in the Introduction or Review sections of these courses, *before you begin*, to receive the appropriate credit. Here are the courses:

- **Part 107 Small UAS Recurrent Non-Part 61 Pilots (ALC-677)** — All individuals who hold a part 107 remote pilot certificate are eligible to take this course. **If you don't hold any other pilot certificates other than part 107, this is likely the course you need to take.** <http://bit.ly/ALC-677>
- **Part 107 Small UAS Initial (ALC-451)** — Only part 107 remote pilots who are also certificated and current under part 61 are eligible to take this course. <http://bit.ly/ALC451>
- **Part 107 Small UAS Recurrent (ALC -515)** — Only part 107 remote pilots who are also certificated and current under part 61 are eligible to take this course. <http://bit.ly/ALC515>
- **UAS Initial Aeronautical Knowledge Test** — If you do not hold a current Remote Pilot Certificate and want to operate under part 107, you must take this test through an FAA-Approved Knowledge Testing Center (<https://faa.psiexams.com>). Please note that there is a fee associated with this test. Part 61 pilots who do not have a current flight review (per 14 CFR 61.56) and wish to operate under Part 107 are required to take this test as well.

Completing any of the online courses or passing the UAS Initial Aeronautical Knowledge Test will provide 24 calendar months of currency. A calendar month includes all days within that month. For example, completing the Part 107 Small UAS Recurrent Non-Part 61 Pilots (ALC-677) course on April 6, 2021, will permit a remote pilot to fly under part 107 through April 30, 2023. For more information, go to [www.faa.gov/uas](http://www.faa.gov/uas) or see the FAA news release here: <https://www.faa.gov/news/updates/?newsId=97201>.
