Real Life Breakdowns (WINGS)	NOV 2, 7:00pm
Using AeroEducate in an Education Environment	NOV 3, 7:00pm
Past Aircraft of the Collection	NOV 8, 7:00pm

YOUNG EAGLES

Chapter 770 hosted its' fall Young Eagles rally September 17th and after a few flights were conducted, due to high winds postponed remaining flights that day to the September 24.

38 kids and several parents got to fly over the two days. Thanks to the pilots and volunteers whose work helped kids experience flight either for the first time, or helping renew their interest by filling their Young Eagles logbook with multiple logbook entries.

(the ramp lineup Saturday September 24th: a wide variety of flying experiences await, from a gyro to a warbird, two seat tandem? Yep we can do that, 4 place Cardinal, 172, Archer? How about a Columbia? Quite the specturm of the GA experience was available to introduce kids to flying)

SANGAMON VALLEY RC FLYERS FLY IN

The Sangamon Valley RC Flyers hosted a potluck/Fly In to aircraft of all scales Sunday OCT 2 at Holmes Field. The grass strip just south of Lake Springfield is home to the RC club as well as a grass strip capable of handling full scale aircraft and is also a fueling base for medivac helicopters.

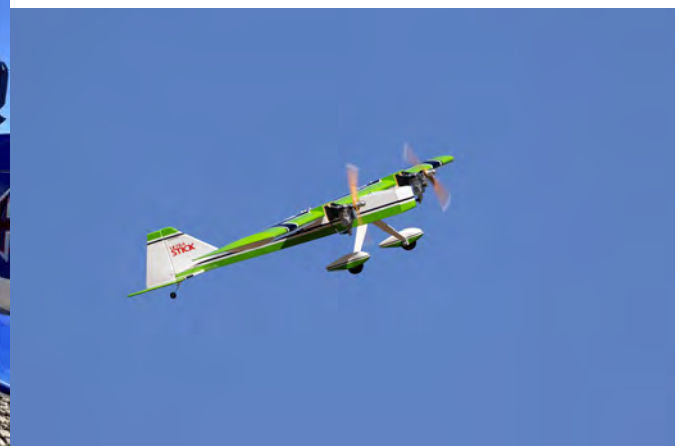

Holmes Field

RC Sukhoi

multi engine RC taildragger (more of Chris' photos from the weekend and other events available at [Spi-photo](#))

The tail on Rod's Stinson is getting light as he departs on runway 09

another Young Eagles' flight in the Gyro

the Buttercup on its' takeoff roll on runway 27.

Delbert was licking his chops to get up in the Citabra... word around the hangars is he is a natural stick and rudder guy. In a post flight interview he told me, "when it comes to instruments, I only fly aircraft equipped with a turn and slip indicator because the newer turn coordinators do not feature the doghouse".

Marty flying a photo pass in the Taylorcraft

Jeff points the Columbia skyward

Paul, Delbert, and Terry on the go off the grass...
