## JANUARY MEETING:

Join us for the upcoming EAA Chapter 846 Monthly Chapter ZOOM Meeting on Thursday, Jan 14, 2021 @ 1900.

We are planning 'exciting' ZOOM Meeting with Paul Lutz and Randy

Paul will conduct meeting to start

After the

complete, Randy

January 2021

and possibly a short flying safety program (emphasis on short).

Finally, since we did not have our annual Christmas Party and we missed out on the exciting gift exchange, we are going to have a Gift drawing of sorts.

Everyone who is online for the **ENTIRE** meeting will receive a number and a random drawing will be held for the fabulous prizes that we have to give away this year. Don't miss this **HUGE EVENT!** You must be online for the entire meeting to be eligible for the drawing!

to have another meeting that Paul Brooks will conduct.

the normal business off the festivities.

business portion is will show the

**(See page 10 for more details)**

Do you recognize this modern homebuilt? It can be built from plans or a quickbuild kit, tandem two seater, with aluminum tube and fabric construction ? See page 8 for more information.

# Year In Review

By Gary Baker

## EAA Chapter 846 in Review 2020

Oh, what a year!!!

**January** – The Chapter’s Annual Christmas Party was very well-attended at Krabill Shelter. New President Matt Tomscheck presented recognition certificates and pins to officers. Gary Baker presented pins and certificates to Young Eagles Day volunteers. Katie Hanchek took the highly coveted bowling pin home. Randy Brooks presented a plaque of appreciation to outgoing president Gary Baker.

Maintenance and repairs began on the chapter’s Titan Mustang. During the monthly meeting, Pete Klapp, the 2018 Chapter MVP, presented Jeff Paden with the 2019 Chapter MVP award. Chapter By-Laws were updated and approved. Paul Lutz introduced presenter Bill Repucci from South Carolina. In a harbinger of the year to come, Bill gave his program on magneto timing and electronic ignition via the internet!

**February** – Jane Earl was chosen as the 2019 Chapter Air Academy Scholarship recipient. Chapter 846 was again recognized by EAA Chapter Office as a Gold Chapter that scored 10 out of 10 in annual evaluations. The Chapter was accepted as a Ray Aviation Scholarship Chapter for 2020 using matching funds. Bennett Petersen gave a talk about IAC competitions during the February meeting. Gary Baker also gave a program on aerodynamics.

**March** – Mary Baker, web editor, gave an update to the Board about the new chapter website, <https://chapters.eaa.org/ea846>. The March meeting was cancelled because of the newly implemented Covid-19 lockdown. Bill Blunt’s widow, Vicky, donated Bill’s Sonex project to the chapter.

**April** – Congratulations to Randy Brooks on the first flight, April 4, of his Piper J-3 Cub after a six-year restoration! The first Zoom Chapter meeting was held with great success with thirty attendees. After interviewing five applicants on Zoom meetings, Ferenc Somogyi was selected as the Chapter’s 2020 recipient of the Ray Scholarship. Paul Lutz was recognized for submitting an article to EAA and having it published in the April 2020 issue of Sport Aviation.

New members-Ferenc Somogyi, Scott Taggart

**May** – EAA announced that Oshkosh (AirVenture 2020) was cancelled. The EAA Air Academy Camp was also cancelled. Jason Lorenzon’s son Todd completed his first solo! President and DAR Matt Tomscheck presented Jay Waddell with an Airworthiness Certificate after inspecting Jay’s RV-9A May 16. The chapter held a fly-out to Carroll County Airport with four airplanes making the trip. The May meeting was held via Zoom. Jeff Paden took delivery of his Yak-52, flying it from South Carolina to Medina.

New member-Steve Zvada

**June** – Another chapter fly-out of five planes took place with Swank Field as the destination. T-51 Mustang work parties were held which completed the required work. The June meeting was held at the Chapter hangar. Jay Waddell flew his RV-9A for the first time June 6. Gary Baker was able to pass out Young Eagles volunteer certificates in person to deserving individuals.

**July** – The July meeting was again held at the Chapter hangar. Randy Brooks and Jay Waddell were presented with their project completion plaques by Matt Tomscheck. Jay talked about the EAA Flight Test manual and highly recommended it. Jay is also making Completed Projects plaques for display in the Chapter hangar. The chapter agreed to work with aircraft brokers to sell the Mustang. The EAA Chapter video was shown during the monthly meeting in which EAA President Jack Pelton discussed how EAA was dealing with Covid-19 and the cancellation of Oshkosh. In lieu of Oshkosh being cancelled, Paul Lutz and Randy Brooks organized a weekend fly-out at Swank Field, called SwankOSH, over the first weekend that Oshkosh would have occurred. Approximately fourteen aircraft and almost thirty chapter members and friends attended. New members-Casey Keibler, Eric McWilliams, Chris Oehlers, and Chris Sopko and his family

**August** – Gary Baker hosted this month’s meeting at his hangar at Medina Airport. Matt Tomscheck gave a presentation on the new FAA Airworthiness Certification Tool. Bernie May took a road trip with the grandson to Mexico, Missouri, and picked up his quick-build Zenith Cruiser CH750. Mathew Recker completed his first solo flight August 18. A chapter fly-out was held

## Year In Review

By Gary Baker

### Review 2020 cont...

with ten aircraft meeting at Swank Field for breakfast. Another fly-out took off the next weekend with Richard Downing Airport as the destination. Four planes joined up for this flight.

New members-Robert Balli, Jerry Mraz, Jarrod Pape, Freeman and Mary Jane Swank

**September** – The monthly meeting was again held at the Chapter Hangar. Freeman and Mary Jane Swank were presented with thank you gifts and honorary chapter memberships as recognition for allowing the chapter to invade their lovely airfield every few weeks each summer. Fred Wellman received the Airworthiness Certificate for his SPA Panther after Matt Tomscheck inspected Fred's aircraft September 7. Gary Kohler brought his RV-7A back to Skypark Airport after having it painted.

New members-Steve Bates, Jeremy Cowgar and his family, Tom Lutgring, Dean Mitchell, and Curt Speck and his family

**October** – The last in-person meeting of the year was held at the Chapter Hangar, with the weather still cooperating. Gary Baker gave a program on the Impossible Turn. EAA's monthly Chapter video was also shown. The Chapter's Bragging Wall was hung, showing completed projects by members over the years. Many thanks go to Randy Brooks, Pete Klapp, Ron Lutz and Dave Manning for hanging the plaques. Jeff Paden, Jason, Todd and Victoria Lorenzon, and Gary Baker took part in Aerotrek Flight Academy's Healthcare Workers and First Responders fly-over event. Ohio Secretary of State Frank LaRose joined Gary for the flight.

New member-Abby Donofrio and her family

**November** – Charlie Becker, EAA director of chapters, communities, and homebuilt community manager, joined Chapter members during the monthly meeting held via Zoom. Charlie discussed how the pandemic has curtailed many operations at EAA in Oshkosh, but planning was still going forward for AirVenture 2021. Ned Parks, local FAASTeam rep, talked about airspace congestion around Skypark and Wadsworth Airports. Curt Speck and Jeremy Cowgar picked up their respective Zenith 750 kits by driving together to Mexico, MO (like Bernie May had

done earlier in the year). A small chapter fly-out was held with Swank Field as the destination, after Paul Lutz and his family said goodbye to their Stinson 108. The Stinson was sold and delivered to a couple in Texas. Pete Klapp reported a successful first flight of his KR-2S, flown November 18.

New members-Bob Eiben and Kurt Hoes and his family

**December** – During the Chapter's Annual meeting on Zoom, Jason Lorenzon gave a presentation on buying and selling aircraft and pitfalls to avoid from the legal standpoint. The Chapter received a sizeable donation from a local flying club that disbanded. This donation will be earmarked for

the Chapter's Ray Scholarship program. The Chapter ended the year with a membership of 99! This is the highest number of members in the thirty-five history of the chapter. Despite the Covid-19 pandemic in 2020, four Chapter pilots flew 27 Young Eagles. This brings the Chapter's total of kids flown since 1993 to 3,130 Young Eagles!

We had to cancel all of our events after Covid-19 arrived in Ohio, but we still had a fairly active year on an individual basis! Thank you all for your membership in 846!

### New Chapter President:

We are looking for a new President for EAA Chapter 846. Therefore, our Chapter/Board needs a member to fulfil the remaining year of the current term. This is an important position that needs to be filled for the chapter to continue functioning properly. Any chapter member interested in serving as President should contact Greg Cantrell by phone, 330-263-6926 or e-mail at [k4g1c5@aol.com](mailto:k4g1c5@aol.com).

### Gary Baker Presents Online with EAA:

Gary Baker will walk you through the preparations you need for a safe and successful flight test program including the Flight Advisor program and the additional pilot program. Gary has conducted phase 1 flight testing on both his RV-6 and a Falco and was a contributor to the EAA Flight Test Manual. **See page 6 for more information on the Homebuilders Week.**

## IMPORTANT UPDATE: FAA and Covid-19 Vaccinations

From FAA.gov, as of 12/12/20: "To maintain the highest level of safety in the National Airspace System, the agency will require aviation professionals with medical certifications or medical clearances to observe a period of 48 hours following the administration of this vaccine before conducting safety-sensitive aviation duties, such as flying or controlling air traffic. Because the Pfizer vaccine requires two doses, 21 days apart for maximum effectiveness, this waiting period applies after each dose.

The FAA anticipates taking no additional measures to ensure safety after the initial window for side effects closes. However, the agency's medical professionals will continuously monitor the initial distribution of the novel vaccine and documented clinical results and will adjust these recommendations as needed.

The FAA will evaluate vaccines from other manufacturers as they receive FDA authorization in the coming weeks and months and will advise pilots and air traffic controllers of any waiting periods required for those vaccines.

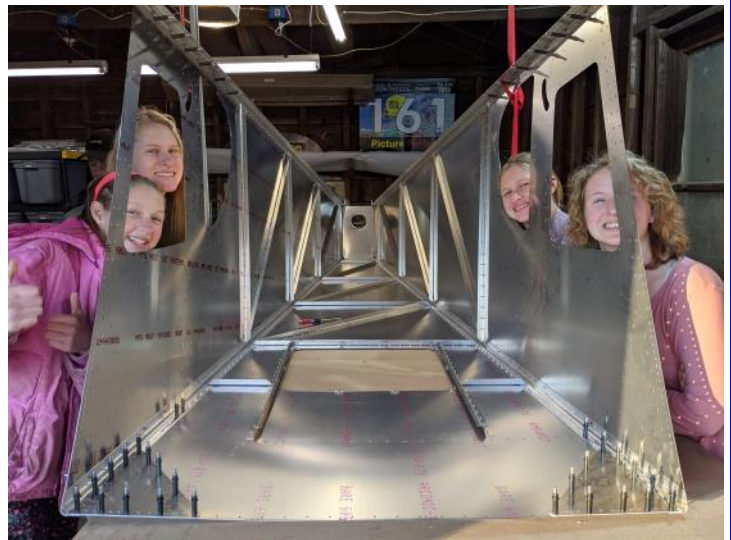

The FAA applies similar brief waiting periods after administration of other vaccines, including those for tuberculosis and typhoid."

## Project Update

**Jeremy Cowgar writes:**

Here is just a short update on our **Zenith CH-750 Cruiser**:

Fuselage complete, picking up engine, prop and FWF package Jan 18th, began wiring the panel. I've attached 1 photo, it's not the latest, but one of my favorite so far of the progress.

## Project Update

**Michael Guenther writes:**

Work continues on the **RV-8** horizontal stabilizer skeleton frame. Front and rear spars are mocked up and match drilled. Also working through the service bulletin that is required for this part of the tail. With a tail kit made in 2011, a service bulletin kit made in 2015 and plans from 2016, things don't exactly match up which has slowed things down a bit while trying to verify parts and plans. Next steps are to fit the ribs and skin.

chapter website at <https://chapters.eaa.org/ea846>. All interested applicants need to be between 16 and 18 years old at the time of the camp. The camp is scheduled to take place beginning Tuesday, July 20, ending Wednesday, July 28, 2021. The applicant needs to provide two reference letters and an essay attached to the application. The deadline for submission is Friday, February 5, 2021.

Additional instructions and requirements are noted on the application form. This scholarship has a value of \$1,605. Any questions can be directed to Gary Baker, [ggbaker@zoominternet.net](mailto:ggbaker@zoominternet.net), 330-321-6274.

## Ray Scholarship Update

By Mike Guenther

The year 2021 begins with our Ray Scholar Ferenc Somogyi, beginning his flight training with instructor Derek Shadd at Medina Flight Services. The two of them will be working together during the coming months to reach Ferenc's first milestone of achieving his first solo flight. Additionally Ferenc continues to prepare to take the FAA Private Pilot written exam. Thanks to a collaborative agreement between EAA and Microsoft, as a Ray Scholar, Ferenc will be receiving a free copy of the new Microsoft Flight Simulator as will all EAA Scholarship winners for the next three years! Thanks to this same agreement, all EAA members are eligible for a discount on the new addition of Flight Simulator.

Looking towards the future, our Chapter was recently presented with a very generous monetary donation from Charlie Cartledge to be used for additional youth flight training scholarships! After discussion among the Board members, the Board believes that the best use of these funds is to apply to participate in another 50/50 matching EAA Ray Aviation Scholarship for the year 2021. This will allow our Chapter to continue to participate in this highly successful program and provide another deserving young man or woman with the opportunity to learn to fly. The Board is requesting approval of this decision by vote of the membership at our January virtual meeting.

## 2021 Air Academy Camp Scholarship Applications

By Gary Baker

The Chapter has been sending area youth to Oshkosh, WI, for many years to attend EAA's Air Academy Camp. We are accepting applications for the 2021 Air Academy Camp. The application is attached to this newsletter and available on the

## Young Eagles Flying!

By Gary Baker

In spite of all of the difficulties we endured in 2020, twenty-seven area kids were treated to the joy of flight by four Chapter members. Karl Aber and Paul Lutz each flew one kid and Paul Reidy flew two kids. Bryon Palitto was very busy in January and February by flying twenty-three kids. Thank you, gentlemen!

International Young Eagles Day this year will be Saturday, June 12. Hopefully, we will be able to hold our Annual Chapter 846 Young Eagle Day on that day. Mark your calendars!

## 2021 Annual Dues

Even though the chapter is not meeting in person, your 2021 dues can be paid by check by mailing them to Gary Baker, Treasurer, 770 Victoria Circle, Medina, OH 44256. Please complete the Membership Form and send it with your check. Dues can also be paid by going to the Chapter website <https://chapters.eaa.org/ea846/membership-benefits/join---renew---donate>. Payment can then be made using PayPal. Please send any changes in your information to Gary at [ggbaker@zoominternet.net](mailto:ggbaker@zoominternet.net). Thank you for your membership in 846!

## Propane Heater For Sale

## Homebuilders Week

### An Online Event Starts January 26

*An online opportunity to learn about all aspects of building your own aircraft*

By Charlie Becker, EAA  
Homebuilt Community Manager

EAA is launching a new online learning event for aircraft builders: ([www.EAA.org/HomebuildersWeek](http://www.EAA.org/HomebuildersWeek)). It will be five straight days of educational forums covering a broad spectrum of aircraft building topics. It will launch on Tuesday, January 26, 2021, and run until Saturday, January 30, 2021. The live online presentations will be open to everyone interested in building their own aircraft. Sessions will start at 1 p.m. CST and run until 8:30 p.m. CST daily.

This event is an opportunity for a new person to jump in with both feet and learn a lot about the wonderful world of homebuilding. We will cover areas like getting started successfully and techniques when building with sheet metal, composites, steel, and wood. But it won't be just for the newbie; we are offering in-depth talks on panel planning, engine selection, FAA certification, flight testing, and selling a homebuilt aircraft. There will be something for every builder, whether you are just starting out, knee deep in a project, or just received your airworthiness certificate — it is going to be a great learning opportunity.

EAA is working with industry experts, kit manufacturers, and other subject matter experts to provide top-notch material for builders. The sessions will be live and allow plenty of time for attendee questions. Recordings will be archived and available to EAA members for review.

The launch of EAA Homebuilders Week coincides with the 68th anniversary of the founding of the Experimental Aircraft Association in 1953. Those founding members of EAA lit the fuse on the homebuilt movement that provides affordable access to aircraft ownership and today has spread worldwide.

EAA Homebuilders Week is possible through the generous sponsorships of Aircraft Spruce & Specialty Co., Dynon, Scheme Designers, Inc., and Van's Aircraft, Inc.

Visit [EAA.org/HomebuildersWeek](http://EAA.org/HomebuildersWeek) to review the schedule and sign up for a session.

## Chapter Project Updates

### Pete Klapp writes:

Trying to sort out a pitot static problem with the **KR 2S**. Have a temporary fix in place but have been able to get Jeff Turner to test it prior to my next flight. He and his company Modern Avionics have been crippled with Covid-19. So all I can do is wait!!!

**Barry Wawrin writes:** The **RV-14A's** canopy is finally nearing completion. Wing wiring, rigging, etc. is next. The IO-390 arrives in April & the Hartzell 74" CS Propeller is being shipped later this month.

**Bob Taylor writes:** I've made a bit of progress on my **Rans S-20**. The interior is nearly complete, the forward control cables have been installed, with help from Pete Klapp. The cowling has been fit and just needs paint. I'm working on the cooling baffles now.

## TigerCub Aircraft For Sale

By: Bob Taylor

This aircraft was built by chapter member, Bob Taylor, and flown for almost 500 hours. It was then sold to a gentleman at Ashland airport, who has since passed away. If interested, please contact Gary Baker. [ggbaker@zoominternet.net](mailto:ggbaker@zoominternet.net) . Best Offer: \$10,000.00.

TigerCub Aircraft. Single-place, LSA. 65Hp MZ202 w/elect. start, PowerFin adjustable pitch prop, Radio, transponder, GPS, Disk brakes. Great fun to fly!

**Mike Baker writes:** The **Sonex** windshield is in place and the canopy frame is nearly ready for rivets, then trim the canopy.

## 2021 EAA Chapter 846—Calendar of Events

Thursday, January 14, 2021	EAA Chapter 846 Monthly Meeting	January chapter meeting will be held as a ZOOM Meeting—EAA Chapter Video	7:00 PM
Thursday, February 11, 2021	EAA Chapter 846 Monthly Meeting	February chapter meeting will be held as a ZOOM Meeting	7:00 PM
Thursday, March 11, 2021	EAA Chapter 846 Monthly Meeting	February chapter meeting will be held as a ZOOM Meeting	7:00 PM

### Current Member Projects:

- ◆ Ron & Paul Lutz, Rans S21 kit on order
- ◆ Joe Walker, RV-7 - Working on the instrument panel & wiring
- ◆ Dale Holmes, RV-7 - Working on fuselage
- ◆ Jeff Zink, RV-7 - Working on the wings
- ◆ Mike Baker, Sonex - Windshield in place, preparing canopy
- ◆ Dan McAlonan, Stolp Starlet SA-500, engine is now mounted and ready for first start
- ◆ Pete Klapp, KR2S - Successful first flight 11/18/2020
- ◆ Bob Taylor, RANS S20 – Electrical work, boot cowl and baggage area completed
- ◆ Rob Trout, RV-14 - Working on the tail cone
- ◆ Paul Hanchek, Skybolt, Working on fuselage
- ◆ Jeff Polack, RV-8A - Tail work
- ◆ Jeff Hartzler & Steve Zaleski, Chinook, fuselage covering almost complete
- ◆ Barry & Valerie Wawrin, RV-14A, Installing canopy, wing rigging and wiring is next
- ◆ Dale & Nancy Housley, Volmer VJ-22 - Purchased a project and a new set of plans
- ◆ Bernie May, Zenith CH750,
- ◆ Mike Guenther, RV-8, working on horizontal stabilizer
- ◆ Steve Boyer, Restoring a Grumman Tiger
- ◆ Jeremy Cowger, Zenith CH750, finished the horizontal stab, elevator, right wing
- ◆ Randy Brooks, Rans S21 kit on order
- ◆ Matt Tomscheck, Highlander, horizontal stab, elevator covered

**Answer:** The **Murphy Renegade** is a family of [Canadian](#) two-seats-in-tandem, single engine, conventional landing gear, [biplanes](#), produced by [Murphy Aircraft](#) and intended for [amateur construction](#). <sup>[1][2][3][4][5][6][7]</sup>

In Canada all Renegade variants are eligible to be registered as [amateur-built](#), [basic ultralights](#) or [advanced ultralights](#). In the USA the Renegade is not on the list of [Special light-sport aircraft](#), but is eligible for the [Experimental - Amateur-built](#) category.

Source: <https://www.murphyair.com/detail/renegade.html>, [https://en.wikipedia.org/wiki/Murphy\\_Renegade](https://en.wikipedia.org/wiki/Murphy_Renegade)

# **EAA CHAPTER 846**

## **Chapter Meeting**

### **Minutes of the**

#### **December 10, 2020 Meeting**

**The meeting was called to order at 19:00 by Vice President Paul Lutz. The meeting was held via the ZOOM format and there were 21 participants. This meeting serves as the Annual Meeting for EAA Chapter 846, a 501(c)(-3-) organization.**

**We had 4 visitors joining us, including Richard from Boston Massachusetts and David Booth from Scottsdale Arizona. The other two visitors were also from out of state.**

#### **-November Meeting Minutes**

Minutes from the November 19, 2020 meeting were reviewed, and the time of adjournment was corrected from 20:41 to 21:41. With no other additions or corrections to be made, a motion was made by Randy Brooks and second by Gary Baker to approve the minutes. The motion passed.

#### **-Mustang Update: Randy Brooks**

Randy reported that Jeff Paden picked up the starter for the Mustang from Bill Koleno. Bill Koleno said he was working toward securing a deposit on the airplane.

#### **-Air Academy**

The Air Academy is planned for July 20, 2021 through July 28, 2021. We need applicants in the 16 – 18 year age bracket. February 5, 2021 is the deadline for application.

#### **Ray Scholarship: Mike Guenther**

Mike reported Ferenc Somogyi, the Chapter's Ray Scholarship recipient, is ready to go. He has chosen an instructor and has received the starter kit from EAA. Mike will meet and go over the program with his instructor.

#### **-Officers Reports:**

**President:** With Matt Tomscheck being absent, there was no President's report.

**Vice President:** Paul Lutz reminded chapter members about Matt stepping down as President and asked for a volunteer to take over this very important position. He informed members they would only be serving the one remaining year of the two year term. Paul also recognized and thanked Steve Greer for the \$500 donation he made to the chapter through State Farm insurance.

**-Treasurer:** Gary Baker reported there were sufficient funds in the bank account for chapter business. He also reported the chapter had 99 paid memberships, the most the chapter has ever had. He reminded the membership they can pay their dues via PayPal on the chapter website.

**-Secretary:** With the minutes being approved previously, Greg Cantrell had nothing further to report.

#### **-Monthly Program: Gary Baker, Jason Lorenzon** **Gary Baker:**

Gary went over the different color blue lines depicting Class Bravo airspace on Foreflight. There are two different shades of blue lines, with the lighter blue line being correct. He advised using the December 8, 2020 update and the difference will be corrected. The lines depicting Class Bravo airspace were misprinted by Jeppesen. He noted that other airports may also have the same discrepancies, so pilots should check before flying to avoid an unknowing incursion into Class Bravo airspace.

#### **Jason Lorenzon:**

Jason presented a program on the legal aspects of buying an airplane as well as addressing the Covid-19 situation and legal issues pertaining to our medicals. Jason is a chapter member and an attorney, with about 95% of his practice is dealing in aviation law. He made chapter members aware the program tonight would be approved for FAA WINGS credit. Jason's program provided several good points to follow/consider when purchasing an airplane:

Do your due diligence before you buy. Look closely at log books.

If you have a good mechanic, make them your best friend. Look at the Contract for Sale forms available on the EAA and AOPA websites.

Make sure the airplane is free of all liens before you proceed with purchase.

Never purchase an airplane in your own name. Always use an LLC to purchase an aircraft. The LLC can also be incorporated in a trust.

In regards to the Covid-19 vaccine update, Jason recommended going to your AME first, as the vaccine has not yet been approved by the FAA for use by pilots.

**For any questions about tonight's program, Jason can be reached at 330-472-5858 or at [jlorenzon@lorenzonlaw.com](mailto:jlorenzon@lorenzonlaw.com)**

**With no other business to be brought before the chapter, a motion to adjourn was made by Gary Baker and second by Randy Brooks. The motion passed and the meeting was adjourned at 21:03.**

Respectfully submitted,  
Greg Cantrell, Secretary  
EAA Chapter 846

**EAA CHAPTER 846  
BOARD OF DIRECTORS MEETING  
DECEMBER 30, 2020**

The meeting was called to order by acting President Paul Lutz at 19:04.

Board Members present: Gary Baker, Paul Lutz, Bob Taylor, Randy Brooks, Ron Lutz, and Greg Cantrell

Members Present: Mike Guenther, Ray Scholarship Coordinator.

Mike updated the Board on the Ray Scholarship program. He reported the deadline for application for participation in the Ray Scholarship program by the chapter for 2021 is December 31, 2020, which is tomorrow. Mike presented several scenarios and options for the chapter to consider. After discussion of the options by the Board and Mike, the consensus of the Board was to apply for the Ray Scholarship in 2021 by using the 50/50 matching funds option of the program.

A motion was made by Randy Brooks and second by Paul Lutz to apply for the Ray Scholarship in 2021, and do the 50/50 matching funds option. The motion passed unanimously.

This will then be presented at the chapter meeting on January 14, 2021 for a member vote.

With no other business to be brought before the Board, a motion to adjourn was made by Paul Lutz and second by Randy Brooks. The motion passed unanimously.

Respectfully submitted,  
Greg Cantrell  
Secretary EAA Chapter 846

Experimental Aircraft Association  
Chapter 846  
Wadsworth, OH

## 2021 EAA Air Academy Scholarship Application

Chapter 846 of the Experimental Aircraft Association (EAA) is offering a full scholarship to attend the EAA Air Academy in Oshkosh, WI, in July 20, 2021 to a deserving area youth who has an interest in aviation. The EAA Air Academy is a fun-filled aviation camp experience for youth ages 16-18. Since 1984, experienced instructors and dedicated staff have shared their knowledge and lore of aviation through hands-on workshop, classroom, and outdoor experiences.

The Scholarship will cover the entire cost of the camp as charged by EAA, which includes room and board. The recipient of the scholarship will need to provide his/her own transportation to and from Oshkosh. More information about the Advanced Air Academy can be found at <https://tinyurl.com/y572d4ao>. The session 1 camp runs from July 20 thru 28, 2021. **Do not apply on-line.**

### Requirements:

- The applicant must be between the ages of 16 and 18 at time of the camp,
- The applicant must reside within a seventy-five-mile radius of Wadsworth Skypark Airport,
- The applicant must complete this application,
- The applicant may attend the February 13, 2020 Chapter meeting to speak to the members prior to vote,
- After the camp, the scholarship recipient must be willing to attend a meeting of Chapter 846 and give a presentation about his/her Air Academy experiences,
- **The applicant must provide two letters of reference from unrelated individuals,**
- **The applicant confirms that he/she will have transportation to and from Oshkosh, WI.**
