Please join us for our upcoming EAA Chapter 846  
Monthly Gathering on:

**Date- Thursday, October 10, 2024**

**Location- Skypark Airport, Chapter hangar, M-1**

Social time starts at 6:30 pm,  
regular gathering will start at 7 p.m.

**October Gathering Agenda:**

- **Project Updates & Upcoming Events**
- **Tool Crib Update**
- **Safety Topic– Pre-Takeoff Briefing, Logan Cohara**
- **Program- O-300 Valve Guide Rope Trick & Ring Flush, David Gerdeman**

**Why is development in airplane  
engineering so slow?**

## Welcome New Members & Guests

Jeremy Wilson and his son, Xavier, joined the chapter with a family membership during our September Gathering. Jeremy has his A&P certificate and Xavier is very enthusiastic about learning about aviation and assisting with chapter activities. Robert Parmelee, a guest during the September Gathering, joined the chapter as well. Robert has his ATP certificate with a glider rating and has begun building an RV-12.

**Welcome to the chapter, Jeremy, Xavier and Robert!**

Many guests joined us during the September Gathering: Alyssa Bengough and her father, Ron, Keirstin Taylor and her father Dustin, and Robert Parmelee.

---

## In Memory

## [Fred Coblentz Induction Ceremony Video at Oshkosh, AirVenture 2024](#)

---

## A BIG THANK YOU to our August Gathering Cooks and Prep

**Greg Cantrell and Karl Aber!**

---

## Calling all Handymen...

There will be a work party to install the electric in our Chapter hangar tool room on **October 26, 2024**. If you would like to volunteer to help please come. We will start at 9:00 am and work till finished. I hear there might be doughnuts!

## Awesome Jobs!

- Brian Burke gave a great safety topic on Medications for Pilots. Those in attendance came away with some knowledge of medications they need to be concerned with before taking to the air.

- Matthew Tomscheck provided a great presentation regarding Aircraft registration, airworthiness on-line application tool, aircraft inspection and issuance of the EAB airworthiness certificates.

---

## VMC Club

By Gary Baker

The October meeting of the chapter's VMC Club will be held Tuesday, October 29, 7 p.m., in the meeting room at Skypark Airport.

The season will be changing soon so, in preparation, our topic for the meeting will be cold weather operations. We will discuss everyone's best practices in getting ready for the cold, white stuff and ice. All aviation enthusiasts are invited to join us. FAA Wings credit will be available for this meeting. [REGISTER HERE for Wings Credit.](#)

More information about VMC Clubs can be found at [HERE](#). **We hope to see you there.**

---

## Ray Scholar Update:

Our current scholar **Doug Tytko** has been busy as of late finishing up all of his training requirements for the Private Pilot Certificate. Doug has one more solo cross-country flight to finish and then will begin preparing for his checkride with the help of his instructor as well as a few members from our Chapter. In addition, Doug is ready to take his written test and hopes to have that completed in the next few weeks time.

# More Successful Young Eagles Days!

By Gary Baker

The first rescheduled Young Eagles Day on September 28 was another successful event, after the ceilings cleared up. Eight pilots flew thirty-seven Young Eagles throughout the morning and early afternoon. One pilot, George Lungley, was a guest pilot from Chapter 9 in Columbus. An additional thirteen chapter members assisted on the ground.

## The pilots' totals for September 28th were:

|                       |                        |
|-----------------------|------------------------|
| <b>Karl Aber</b>      | <b>10 Young Eagles</b> |
| <b>Gary Baker</b>     | <b>3 Young Eagles</b>  |
| <b>Logan Cohara</b>   | <b>4 Young Eagles</b>  |
| <b>David Gerdeman</b> | <b>7 Young Eagles</b>  |
| <b>Paul Hancheck</b>  | <b>3 Young Eagles</b>  |
| <b>George Lungley</b> | <b>2 Young Eagles</b>  |
| <b>Chris Shearer</b>  | <b>2 Young Eagles</b>  |
| <b>Matt Tomscheck</b> | <b>6 Young Eagles</b>  |

**Mary Baker and Steve Greer** handled all of the registrations and assigning of kids to pilots. **Greg Cantrell and Ron Lutz** showed families their remote control aircraft and simulators. They also talked to kids about the Chapter's new Build & Fly program and found five kids who would be interested in building the RC aircraft. **Randy Brooks** did another stellar job of directing aircraft on the ramp. **Brian Burke** ran the ground schools and showed his hands-on demonstrators. Other volunteers were **Doug and Steve Tytko, Jeffrey Berno, Zavier Wilson, Jerry Wang, Noah Consolati, and Kaylie Holmes.**

The second rescheduled Young Eagles Day, October 5, was another success story! The weather was perfect: a cloudless day, light winds, and comfortable temperatures. Forty-nine Young Eagles were flown during thirty-three flights. Seven pilots were assisted by many chapter members. **Mary, Steve Greer and Sherry Tytko** took care of registrations. **Ron Lutz** talked to folks about RC aircraft. **Brian Burke** took charge of the ground school again. Plane captains were **Dave Manning, Steve Tytko, Jeffrey, Zavier, Mary, and Kevin Fink.** **Walt Halloran** assisted **Randy** on the ramp. **Chris Oehlers** brought in his 3D printer and **Paulie Hancheck** talked to kids about the airplanes that were being printed. **Doug Tytko** took photographs.

## The pilots' totals for October 5th were:

|                       |                        |
|-----------------------|------------------------|
| <b>Karl Aber</b>      | <b>7 Young Eagles</b>  |
| <b>Gary Baker</b>     | <b>3 Young Eagles</b>  |
| <b>David Gerdeman</b> | <b>10 Young Eagles</b> |
| <b>Paul Hancheck</b>  | <b>5 Young Eagles</b>  |
| <b>Chris Oehlers</b>  | <b>7 Young Eagles</b>  |
| <b>Bryon Palitto</b>  | <b>7 Young Eagles</b>  |
| <b>Josh Tomscheck</b> | <b>10 Young Eagles</b> |

We also want to thank the staff and management at Wayne County Airport for allowing us to take over their facility during these events: Matt Long, Rachel Berkey, Preston Seran, Steve Zaleski and Daniel Hodge. These two events occurred because of a weather cancellation in August and probably resulted in more Young Eagles flown than we would have in August.

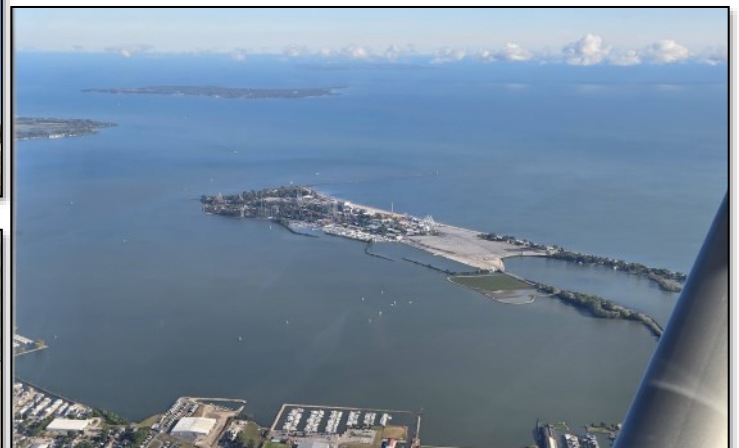

**Eighty-six Young Eagles were flown over the two Saturdays. Many thanks to all who assisted in making these events successful!**

[CLICK HERE to view and add your photos of both events.!](#)

# Fly-Out to Port Clinton (KPCW) & Ortner (I64) Airports, September 8, 2024

The following individuals: flew to Port Clinton to visit the Liberty Aviation Museum, Gerry Wang, Paul Lutz and family, Randy Brooks and Paul Hancheck. Afterwards they stopped at Ortner Airport and tried to take the tow plane for a flight!

# Chapter 846 Pancake Breakfast a Great Success!

First, a huge thank you to **Greg Cantrell** who graciously volunteers his time and efforts every year to chair this event. This kudos also includes the numerous other volunteers (*next page*) who donated their time to make this effort a great success.

Sixty-plus airplanes arrived. The chapter served more than 300 breakfasts! This was a record -breaking year for both meals sold as well as sponsorship money received.

# Luray Caverns

By Jay Waddell

If you're looking for a good cross country trip and want to fly to the eastern end and Shenandoah Valley region of Virginia, I'd recommend a stop at Luray Caverns in Luray, Virginia.

If you think "if I've seen one stalactite-I've seen them all"--you'd be wrong. The mile+ long trail takes you deep into the cavern revealing many different mineral types of formations and a noteworthy vista created from a mirror lake that makes the water seem deep with formations when in reality it is the

ceiling above. Around every corner there is something different to see.

There is even an organ that uses the stalactites for creating the notes. Included in the admission price to the caverns is a toy museum, a carriage and

car museum (with many Cleveland made cars), and a history museum/village of life in Shenandoah Valley circa 1850-1865.

Luray (KLUA) is 208 NM southeast of Skypark and has a brand new terminal and courtesy car for visiting the area. If going

only to the caverns, the folks at the FBO will drive and pick you up the short 3 minute drive away. Julie and I had a great 4 hour visit, then flew down toward picturesque Chesapeake Bay on a roundabout way home.

# Back to Michigan!

By Paul Lutz

Another great Michigan Fly In/Camp Out took place in Brighton on Sept 20-22. Brighton is just north of Ann Arbor. This event has grown into a full weekend event with arrivals starting to show up on Friday evening. Due to weather and family obligations, my dad and I were not able to arrive until Sat afternoon.

We took my RV-6 and after landing at Brighton, we were marshalled to our parking spot which happened to be right behind Eric McWilliams in his Cessna 140. Eric competed in the bomb drop contest and said they had a good turn out of contestants.

We spent the evening watching all the flying activities including fly-bys and some aerobatics. After sunset, they had a campfire, a band, and a balloon glow. The evening ended with a fireworks show.

Sunday morning, a few more arrivals showed up for the spot landing contest. They had 20+ airplanes flying in this event, including Eric. He did very well. The most impressive airplane entered in the contest was a Stearman. Once the contest ended we decided to head back to Skypark to beat the approaching storms.

We already are looking forward to next year's event. It will be held Sept 19-21, 2025, if you want to join us.

You can check out a video of this years event. <https://youtu.be/pplyTrGkSps>

**EAA CHAPTER 846**  
**Monthly Gathering**  
**Minutes of September 12, 2024**

The September monthly gathering was called to order by chapter President Chris Oehlers at 7:06pm.

**New Members:** Xavier Wilson and his dad Jeremy Wilson

**Guests Present:** Bob Parmelee, Keirstin Taylor and her dad Dustin Taylor, Alyssa Bengough and her dad Ron Bengough

A special thank you goes out to both Greg Cantrell and Karl Aber for doing the grilling for our Gathering!

Chapter President Chris Oehlers talked about the vacant VP position and asked for volunteers.

Edilene Coblenz thanked the chapter for making it possible for her late husband, Fred Coblenz, to be remembered on the EAA Memorial Wall at Oshkosh.

**Old Business**

Secretary Kevin Fink asked for a motion to be made to accept the August 2024 Chapter Gathering and September 2024 Board of Directors meeting minutes as published in the current Wingnuts. Randy Brooks replied "so moved" and the motion was seconded by Gary Baker. The motion passed by unanimous voice vote.

As a reminder, 2024 chapter dues are due, and can be given to treasurer Gary Baker.

**EAA Chapter 846 Pancake Breakfast**

The EAA Chapter 846 Pancake Breakfast will take place September 14, 2024 from 8AM – 12PM at Wayne County Airport KBJJ. Greg Cantrell passed around a sign-up sheet for volunteers for the different positions needed for the pancake breakfast. A group of volunteers will be meeting up Friday evening to bring supplies down to KBJJ. Setup on Saturday morning will begin at 6:30AM. Liberty Aviation's Ford Tri-motor will be giving rides in parallel with our event.

**AOPA Foundation Scholarship 2024**

Chapter President Chris Oehlers gave updates on AOPA's scholarships. Applications open on September 9th.

**Treasurer's Report**

Chapter Treasurer Gary Baker gave updates on the status of the Chapter checking and CD accounts.

**Air Academy Scholarship**

Chapter Treasurer Gary Baker proposed a motion to send a 16-18 year-old aviation enthusiast to the 2025 Air Academy at Oshkosh. Brian Burke seconded the motion. The motion passed by voice vote. The application will be available on the chapter website and in upcoming chapter newsletters.

**Young Eagles 2024**

Young Eagles Coordinator Gary Baker discussed details for the upcoming 2nd Young Eagles event of 2024 that will take place on September 28th at Wayne County Airport KBJJ. Due to demand and pilot availability, there will also be a 3rd Young Eagles event on October 5th that will also take place at Wayne County Airport KBJJ. There are still more volunteers needed for both events, including pilots!

**Tool Crib**

Chapter President Chris Oehlers gave updates on tools that are missing from the tool crib. Moving forward, the garage door to the toolroom will be padlocked in an attempt to better track tool borrowing. An ongoing list of what tools are currently out on loan will be kept in the monthly chapter newsletter.

Kevin Fink gave an update that we are tentatively planning for an electrical installation day on October 26, 2024. We will need a few volunteers to help run conduit and electric.

**EAA Build and Fly Kit**

Greg Cantrell and Ron Lutz gave updates that all items have been ordered. Most items have arrived, but we are still waiting on a heat gun and a pin vise. We will attempt to cultivate interest at the next 2 Young Eagles events. We would like to start getting kids interested before the end of the year and planning to start building after the new year.

**Ray Scholarship Updates**

2024 Ray Scholarship recipient, Doug Tytko, gave some updates on his flight training. He is continuing to build time flying solo and cross-country flights. He is also starting to study in anticipation of taking the written exam. Ray Scholarship Coordinator Mike Guenther gave an update on the long-awaited flight simulator! It is finally working and will be set up at Doug Tytko's house to aid in his ongoing flight training. There is no update on a second Ray Scholarship at this time.

**VMC Club**

The next VMC club meeting will take place on September 24th at 7pm in the Skypark airport community room. The topic will be GASJC, ForeFlight, Airspace, Traffic Patterns, and SUA.

**August Safety Topic**

Brian Burke gave an interesting and informative presentation on what medications pilots can and cannot take and where to look for this information. Thanks, Brian!

**August Monthly Program**

Designated Airworthiness Representative, Matt Tomscheck, gave an interesting and informative presentation the Airworthiness registration process for amateur-built airplanes. Thanks, Matt!

### **“On Deck”**

October Monthly Program – ??  
October Monthly Safety Topic – Pre-Takeoff Briefing – Logan Cohara

**With no further business to attend to, the September Monthly gathering was adjourned at 9:20pm.**

**Submitted by,  
Kevin Fink, Secretary – EAA Chapter 846**

---

## **EAA CHAPTER 846 Board of Directors Meeting Minutes of October 2, 2024**

The October Board of Directors meeting was called to order by chapter President Chris Oehlers at 7:04pm.

### **Officers Present:**

Chris Oehlers  
Gary Baker  
Kevin Fink

### **Board of Directors Members Present:**

Brian Burke  
Karl Aber  
Paul Lutz  
Ron Lutz  
Randy Brooks  
Greg Cantrell  
David Gerdeman

### **Chapter 846 Pancake Breakfast 2024**

Greg Cantrell gave updates about the chapter pancake breakfast that took place September 14, 2024 at Wayne County Airport KBJJ. 60+ airplanes arrived. The chapter served 295 paying breakfasts. This was a record-breaking year for both meals sold as well as the most sponsorship money the chapter had received.

Thank you to Greg Cantrell for all of the hard work planning and executing this event!

### **Young Eagles**

Chapter Young Eagles Coordinator Gary Baker gave updates on the 2<sup>nd</sup> event of the 2024 season. Young Eagles Day #2 took place September 28, 2024, at Wayne County Airport KBJJ. 8 pilots flew 37 kids on flights. The event went very well despite a late start due to low-level fog that did not lift until mid-morning.

2024 YE Day 3 – October 5, 2024 at Wayne County Airport (KBJJ). Setup will begin at 7:30am with a pilot and

volunteer briefing to follow at 8:30am. At this point, there are 57 kids and 7 pilots signed up for the day.

### **Build and Fly Kit**

All items have finally arrived. Planning to start building after the new year. We will try to cultivate interest at the final Young Eagle event this coming weekend.

### **Tool Crib updates**

Kevin Fink plans to lead a “work day” for installing electrical in the tool crib on October 26<sup>th</sup>. Volunteers will be requested at the October monthly chapter gathering.

### **Boy Scout Event**

Barb Tarutani reached out to Chris to request chapter involvement in an upcoming scout aviation day on October 19<sup>th</sup> at Wayne County Airport (KBJJ). She will attend the October Gathering to discuss what help may be needed.

### **Air Academy Scholarship**

One spot at the 2025 Air Academy Explore Aviation camp has been reserved, confirmed, and the downpayment has been sent. The gender of the applicant is due by the end of February 2025. Applications will open to the chapter this upcoming November.

The Board would like to get feedback from the chapter membership on sending a 2<sup>nd</sup> attendee. This will be discussed at an upcoming monthly gathering.

### **“On Deck”**

October Monthly Program – O-300 Valve Guide Rope Trick & Ring Flush- David Gerdeman

October Monthly Safety Topic – Pre-Takeoff Briefing – Logan Cohara

**A motion to adjourn the October Board of Directors meeting was made by David Gerdeman at 8:20pm and was seconded by Greg Cantrell. The motion passed unanimously by voice vote.**

**Submitted by,  
Kevin Fink, Secretary – EAA Chapter 846**

# YOU CAN FLY<sup>®</sup> AOPA FOUNDATION

## SCHOLARSHIPS

### Exclusive aviation scholarship opportunities for AOPA members!

We're thrilled to announce that the AOPA Foundation offers a wide range of aviation scholarships to help you take the next step in your aviation journey.

#### Scholarships for Aspiring and Experienced Pilots

Our aviation scholarships are tailored to support a variety of goals—from earning your private pilot certificate to advancing your skills, qualifications, and career. Whether seeking primary certification, advanced ratings, transitioning to a new aircraft, or specialized training, these scholarships can help you achieve your aviation ambitions.

#### Scholarships for High School Students and Educators

Since 2019, the Ray Foundation has generously provided \$1 million annually in flight training scholarships for AOPA members who teach the AOPA Foundation High School Aviation STEM Curriculum and high school students. Educators and students can apply for up to \$10,000 to earn their private pilot certificate. AOPA also offers a [FREE High School membership](#) to students aged 13 to 20.

#### Ready to Apply?

To explore all available scholarship opportunities and begin your application, visit [aopa.org/scholarships](https://aopa.org/scholarships).

#### Application Deadline: February 7, 2025

Submit your application before the deadline to be considered for these exciting scholarship opportunities. It's not too early to begin the application process!

[Members' Projects on the Chapter 846 website!](#)

## The Next Project...

Our 1946 Taylorcraft is working well, so as to not be bored, we are onto our next projects. We have been prepping Hangar D2 for our accordion style doors and we got the elevator and rudder removed from our 1947 Stinson 108-1. Some of you might have heard, I discovered breaks in the lower longerons by the landing gear. The suspicion is they were caused by numerous hard landings from teaching new private pilots. So, the tail is being removed, the wings removed, engine removed, fuselage fabric stripped, landing gear removed, entire fuselage inspected, repair the breaks, prime the areas that were repaired, recover, and reassemble.

If you ever thought that working on a certified aircraft was easier, trust me, it's no worse than a scratch-built experimental- **Chris Shearer**

## Mike Guenthner RV-8:

Slow progress but progress nonetheless. I've recently been prepping and priming all of the aft wing ribs for both the left and right wings. Having all my workbenches and a wing stand that is mobile has been a huge help. I have a few more ribs to prep before I can rivet them to the main spars.

Everyone is afraid to  
make a groundbreaking  
design!

## Neologisms...Really!

Neologisms are newly coined terms, words, or phrases, that may be commonly used in everyday life but have yet to be formally accepted as constituting mainstream language. Neologisms represent the evolving nature of the English language. Over time people create new words that express concepts or ideas that were previously expressed using other words or use words that may not have existed at all. Neologisms can be completely new words, new meanings for existing words or new senses in existing words. Here are some examples of neologisms that are finding their way into modern-day English language.

Every year The Washington Post runs an annual competition in which the readers of the newspaper are asked to submit alternative meanings to existing words. The results are often extremely amusing. Here are examples of Washington Post neologisms:

1. **Coffee** (n.), the person upon whom one coughs.
2. **Flabbergasted** (adj.), appalled over how much weight you have gained.
3. **Abdicate** (v.), to give up all hope of ever having a flat stomach.
4. **Esplanade** (v.), to attempt an explanation while drunk.
5. **Willy-nilly** (adj.), impotent.
6. **Negligent** (adj.), describes a condition in which you absentmindedly answer the door in your nightgown.
7. **Lymph** (v.), to walk with a lisp.
8. **Gargoyle** (n.), olive-flavored mouthwash.
9. **Flatulence** (n.) emergency vehicle that picks you up after you are run over by a steamroller.
10. **Balderdash** (n.), a rapidly receding hairline.
11. **Testicle** (n.), a humorous question on an exam.
12. **Rectitude** (n.), the formal, dignified bearing adopted by proctologists.
13. **Pokemon** (n), a Rastafarian proctologist.
14. **Oyster** (n.), a person who sprinkles his conversation with Yiddishisms.
15. **Frisbeetarianism** (n.), The belief that when you die, your Soul flies up onto the roof and gets stuck there.
16. **Circumvent** (n.), an opening in the front of boxer shorts worn by Jewish men.

I finally got the chance to see the inside of  
Dave Manning's hangar— Karl

### Activities

Create a flight plan, build bracelets using safety wire methods, code a robot, and so much more!

### History

Learn about aviation next to actual pieces of history spanning from the early days of 1903 to present day!

### Role Models

Meet actual pilots, mechanics, meteorologist, dispatchers, engineers, and many more faces of aviation!

**October 12th**

10am - 2pm

@National USAF Museum

*Girls*  
**IN AVIATION DAY**  
A Women in Aviation International® Event
