President's Column

We encourage everyone interested in aerobatics to make use of this opportunity to learn the basics of aerobatic judging. Furthermore, it helps volunteers who are assisting a line judge, as well as competitors understand what judges are looking for. For everyone interested in becoming a judge, we encourage you to follow through with judges training and become a regional judge (there are never enough judges at contests). If you are already a judge, attending the class will satisfy one of the recurrency requirements. For details, please see info below.

Sandy

Chapter Business
