2nd Annual Wautoma State Ultralight Fly-In at Lake of the Woods Campground

The State Fly In was held Friday August 15th through Sunday the 17th. There were several aircraft attending this great event, from our chapter we had Steve and Dan's GT500, Jack Lasee's Powered Chute, and Steve's MiniMax. About a dozen or so additional club members representing the 101st also made the trip. The weather always plays a part in any weekend campout event. Friday night was just super, however Saturday morning brought heavy rain showers which cleared out by the afternoon giving way to a picture perfect evening. With the Packer victory that day the great sunshine and sunset made the day as good as anyone could make it.

The fun was only beginning when the sun was setting and the campfire started crackling. About twenty plus people gathered around the campfire for stories and jokes. It was nice to have our members and other chapters gather together to enjoy the camaraderie and interests we all share. Other clubs attending were the MicroLight Flyers from Milwaukee and EAA Chapters

41 and 444 from the Appleton area. We missed Bill and his music box but we did manage to get our Ultralight song in and it was enjoyed by all. John Resinger added a twist to the campfire songs by adding a few of his old time favorites. How do those tunes go again John? Or should I use your new nickname "Bernie" spelled "Burnie"?

It was lights out around midnight. Sunday brought mother nature around to tease us with low ceilings and light rain, but good things do come to those that wait. By 4:00 pm we had great VFR so wheels up. However, Plainfield was our next destination as marginal VFR came into play. Thanks to Jeff Reibies Duster strip we had time for bad weather to depart. Back off the ground at 7:00 pm with plenty of daylight ahead was Dan M in the GT500 and Steve K in the MiniMax. I hope that more members can make it next year as it turned out to be a great fun and relaxing family adventure.

Steve Krueger

Rhinelanders Colorama FlyIn

A special invitation by Ray Marvin and crew for us Ultralighters to mingle with the Heavy Iron. Hanger space is available if needed due to inclement weather or an overnight stay if wanted. We are trying to make it at least a half day trip as this event is the same day as our September club meeting. Consensus is to fly up to Rhinelanders in the morning on Saturday the 20th and return to the Toy Box for our meeting with Chapter 243. Contact Steve Krueger for additional details.

Next Chapter 75 Meeting

Saturday September 20th at the Toy Box aka Modern Machine. This is a joint get together with Chapter 243. There is an ample grass strip (approximately 1500' plus) running East and West located on the north side of the machine shop across the road. Our chapter meeting is scheduled for 1:30. Come early, Chapter 243 is sponsoring a corn roast! See the map on the next page for details.

New Pilots On The Block

Congratulations to Pat Heckert first ever solo on 8/27/97, Scott Nelson first ultralight solo on 8/26/97, and Jerry Seehafer first ultralight solo on 8/31/97. And just remember the learning has only begun. Good Luck and Congratulations to you all!
