### Editors Notes

#### October UL Chapter 75 Meeting

The October meeting of the Chapter (yes, we are now officially EAA UL Chapter 75!) was held at Mark Blume and Tom Voss' beautiful hilltop spread north of Marathon City. Unlike the fog and drizzle we experienced at Dick Lee's September meeting, the day was without a cloud. There was a brisk breeze but that didn't stop six of our intrepid members from flying in. A few pilots, unfamiliar with the area, were sighted miles out and guided in by "tower operator" Mark Blume. Those flying in were Dick Lee (Quicksilver MX Sport), Steve Norris (Quicksilver GT. 500), Reiny Hirsch (Challenger), Gordon Radtke (Rotec Rally 2B), Rich Papa (Quicksilver MS Sport) and of course the FBO of Blume Field, Mark and his Air Command Gyrocopter.

Late in the meeting, Dan Marlenga left, only to return with Ron Hase's two-place Quicksilver MXL II Sport with which he gave rides to anyone interested. It was pretty cool flying but no one complained. We were especially pleased when our great helpmate on this paper, Tom Voss, accepted his first flight in an ultralight. Upon deplaning, Tom said it all, "Gotta get one of these!"

The meeting went well, the food and location were great and to top off the day, Wausau's TV Channel 9 crew came out to film some of the action and interview the flyers. Are we making our mark or what?

Two more items come to mind before I close out my section of the newsletter. Another local chapter, 243, is having their monthly meeting on November 16, 7 p.m. at Harmon Lanes "Toybox" north of Wausau, I mention this because they are having a special presentation on re-working Subaru engines for aircraft use. I'm sure anyone interested will be most welcome to attend. Call me if you need more inf. on the location, 845-8673.

The other item I wanted to pass along is from one of our leaders, Paul Poberezny, taken from his editorial in the November issue of the Experimenter.

See you at the Wausau terminal building on the 16th!

Bill Markstrum

### HOMEBUILDER'S CORNER

by Paul Poberezny

Founder and EAA Chairman of the Board

#### Back to Building

For us folks up north, winter is just around the corner. The yard work is already done and the houses are being readied for the cold weather and snow to come. This change in weather causes our thoughts to focus on airplane building. We are starting up our weekend activities again at the Aeroplane Factory. Our current projects include a Fokker Triplane and four Pober Junior Aces, all in various stages of construction. We have a great deal of fun, and a lot of learning in the process. The winter will sure go by quickly. The Aeroplane Factory is located in the EAA Convention campgrounds, here in Oshkosh and visitors are always welcome. If you are in the area on the weekends, be sure to stop by.

#### October UL Chapter 75 Meeting

What a nice day for a fly-in, some days you have to count your blessings. Thank you all for coming and a special thanks to those who were able to bring food. Thanks also to Dan Marlenga for giving rides and of course Ron Hase for the use of his Ultralight. Rich Papa and Steve Norris conducted one of the quickest meetings we have ever had. I drained the fuel out of my Gyro anticipating an end to the warm weather. See you all at the next meeting!

Mark Blume
