Lawrenceville GA 3024

PRESIDENTS MESSAGE

Oshkosh 1989 has come and gone. There was a V6STOL airplane on display and drew a crowd. This conversion (Tri-Pacer to experimental) will carry 4 adults with baggage and cruise 130 on 6.8 gph. This is what we are considering for a chapter project. Jeff and Henry will report on availability of junked Tri-Pacers at the Sept. meeting. If this project is to "go" we will need commitment from 690 members, so get your thoughts together for the meeting.

Attached is a flyer announcing a "Fly/Drive in" at Mallards Landing. These flyers were received from the sponsors of the Flyin. We should consider this advertisement strategy for our 1990 Fly-in. (Mail flyers to go out with various chapter newsletters). News letter editors are always looking for material, right Forrest?

Our next event will be a Pancake Breakfast at Stone Mtn. Airport on Sept. 9th (after Sept. 8 Meeting). Marnie is publicizing this and we are planning 75-80 breakfasts. Come out and support this activity!

On Sept. 23rd we will have a BBQ at the Sego's. Chapter will supply BBQ and drinks, we will need, beans, salad, fruit, bread, dessert, etc. from 690 members. This is a family event, also anyone who is considering joining 690 is welcome. This is a fun event, so come on!

Charles Sego, Duane Huff and Ed Booth are a nominating committee for 1990-91 Officers. They will present nominees for office at the October meeting, and voting will take place at the November meeting. If you have any thoughts or suggestions please advise them.

Mark your calendars for the Dec. 8th Christmas Party. We have reserved a room at the Perimeter North Inn (same as last year) and will have more information in the October NavCom. The

1990-91 chapter officers will be officially installed at the party, so plan to come.

Congratulations to John Popps for having the skill to maneuver out of a potentially deadly situation at Oshkosh. John was trapped in a vortex and came out with only dinged metal. I believe, however, that several green apples were found in the cockpit when things settled down!

Harold Stalcup

EVENTS // FLYINS
