**June 2025 Newsletter**

Hello Member,

Be sure to check the calendar, come to Saturday coffee, and attend the next meeting to find out what's in store for 2025!

Generally, we are focusing on fundraising, ramping up our Eagle Flights program to attract more adults, and making our presence known in the community! I've even heard rumors of a Flying Club! How awesome would that be!?

We are also on the hunt for a permanent clubhouse/meeting place where we can host events and projects. We may have a lead on a double-wide, and we're working on a lease agreement with the HOA to place it next to the HOA building. If you're aware of any suitable properties for sale or rent, please get in touch with the chapter and let us know.

We are continuing to see new faces showing up at the Saturday coffees. This is a great trend. Please come out and join us!

We need a pilot member who is in regular contact with other pilots at the airport to help us stay in touch and help 'get the word out' when we hold an event. If you are active in the pilot community and would like to help out, please volunteer as a Pilot Coordinator for us!

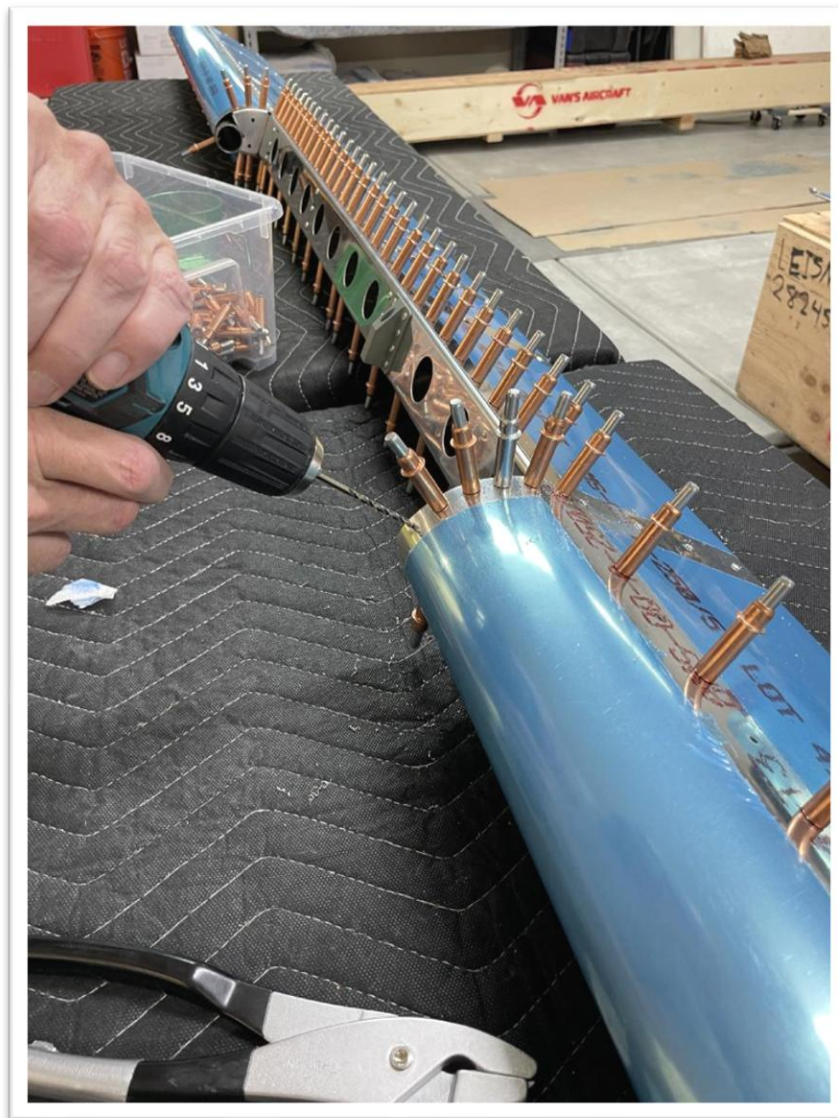

We are also looking for CFIs who would like to be contacted when a member or guest asks about flying lessons. We would list names and phone numbers on all of our publications. This could mean more business for you and new members for the chapter! Please let us know if you or a CFI you know is interested!

## Get your T-shirts now!

Order yours now! Tell your friends, family, and anybody else you know who loves aviation! It's \$20 for adults and \$15 for kids!

Also, 2025 calendars are available now for \$5. Get yours while supplies last!

## **Lone Pine Airport had a GREAT inaugural Young Eagles Rally!**

Anna Montgomery, from the Lone Pine airport, reached out to Pahrump EAA for help flying youngsters at their first YE event. She reports that the event was a success, and she appreciates our help! It was a long flight from here, but one pilot from chapter 1300 made the trip to help out. Every little bit helps and that one pilot was greatly appreciated!

24 kids got to ride, and a direct quote from one of the kids was "This is the best day of my life"! It doesn't get any better than that!

If you would like to participate and help their chapter get 'off the ground', contact the organizers:

## AeroQuest at KVG T

A few of us attended AeroQuest a couple of weeks ago, and we were treated to a great day of possibilities with the local flying schools.

We met John and Martha King, of King Schools. You might have heard of them; over half of the pilots flying today have used King Schools training materials in one form or another!

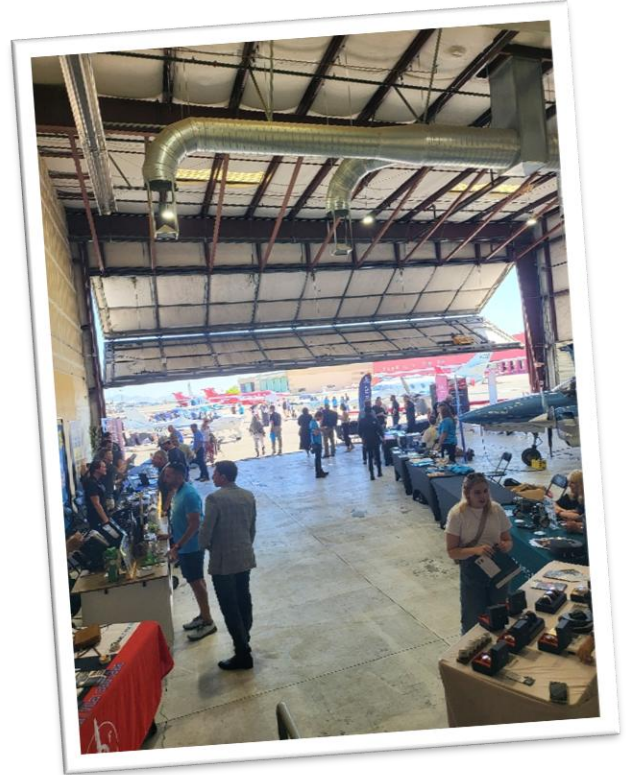

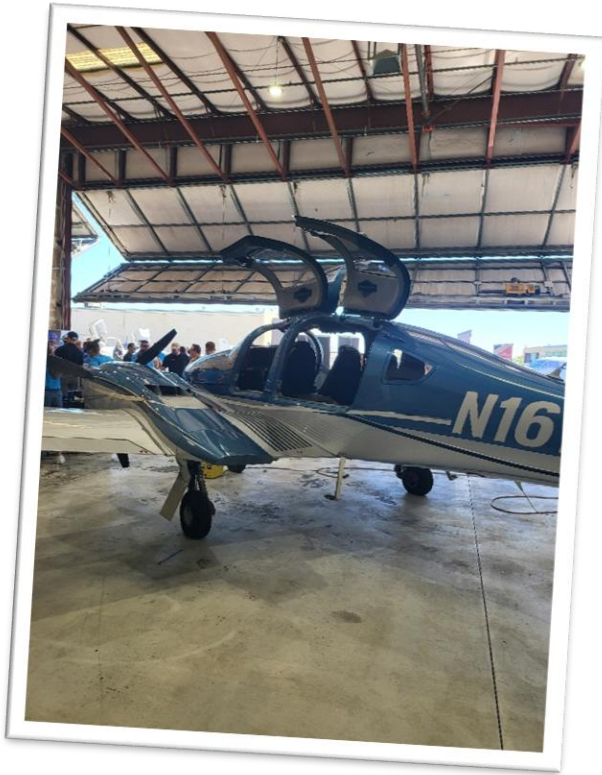

Their jet has been on every continent multiple times. John told us that "it won't hold a heading." 😊

We got up close and personal with the planes on display!

...even won a couple of hats in the raffle! Not the Lightspeed headset or the lifetime training courses though 😞

## Share Your Story!

We have a couple of fascinating stories in the works and we'd love to add yours to the list!

Dig through your old pictures, log books, and memorabilia, and find a great story that you can share with the members! We'd love to hear about it!
